

Our founders knew that without a free press or 4th branch to check the integrity of the other 3 branches of our government, the USA would eventually succumb to corruption and moral decay. In order to help return prosperity to the USA, Conservative Lisa works to expose the unreported news, by searching beyond the headlines to find the truth behind the propaganda.

Clinton Foundation/Uranium One Caused Oregon Standoff & FBI Finicum Murder

This video is age-restricted and only available on YouTube. [Learn more](#)

[Watch on YouTube](#)

The Rest of the Land Grab Story by Shawna Cox

Obama's FBI promptly responded in just 6 days, to Oregon Governor Kate Brown's request to end the standoff, by ambushing and killing in cold blood, a concerned rancher, Lavoy Finicum, who simply sought to discuss the Uranium One land grabbing conspiracy, with the neighboring county's Sheriff. The stand off by ranchers was to bring attention to the fact that the BLM is unlawfully taking private property from Oregon families, who have owned their land for years.

Recent news reports found that all this was done to allow the corrupt politicians in Oregon and DC to mine, sell and transport our uranium to Canada and on to Uranium One's true owners the Russian government. Our politicians have sold out the United States to one of our enemies, for cash and because there are so many powerful people with their hands in the Uranium One treason conspiracy, no one in the Department of Justice seems to have the stomach to indict anyone. We must demand justice!

The intent of their trip was to speak with Grant county people about the Subversive federal land grabbing initiatives that have taken over eastern Oregon & other western states. +60% of Oregon is under Federal control. Nevada is under +75% Federal control. How can we have self governance & States rights when there's this much Federal control of our land??

At the first stop, Lavoy & Ryan Bundy (represented himself in trial to a Not Guilty verdict) knew they might be shot at & repeatedly tell Oregon state police they are going to meet the Sheriff. Toward the end of the video you will see the point where they reach the FBI / OSP road block that was setup in a No Cell zone, on an Icy road & on a curve. Law enforcement characterize this stop as a "dead man road block."

Before Lavoy exits the truck & gets shot many many times, you will see that OSP or Federal agents indeed fired multiple shots into the truck cab. Ryan Bundy Still has a bullet in his arm that federal prosecutors tried to have Forcibly removed during his Jail stay in Portland. Seems No One in Oregon media mentioned that... Lars? ☐

Because of Shawna's cell phone video, we Now know that at least 1 Federal agent has been indicted on Felony charges for Lying about shooting Lavoy Finicum.

Lavoy (& the Bundys) did not go to Burns, Oregon for a Gun fight with law enforcement nor did he go to "Commit Suicide by Cop." The most critical point to make about Lavoy; He jumped out of the truck to SAVE FELLOW PASSENGERS from Also being Shot to death. That is 100% Fact. Just study the video.

Oregon fake news contends that Lavoy was killed because he reached for a concealed pistol. Where is the PROOF that Lavoy reached for a concealed pistol? Clearly from the video, he was being shot at Before he exited the truck.

Now apply some Logic here:

Does it make sense that Lavoy (from Arizona), would illegally conceal carry a Ruger 9mm on his way to meet with Sheriff Palmer?

Umm... ☐. No... Not Likely.

Would Lavoy really pull a small hand gun & attempt to shoot back @ Law enforcement who were already firing multiple high powered rifles at him??

Umm... ☐... No... Not Likely.

Again. We know that at least 1 Federal agent lied about shooting Lavoy & his passengers. Should we believe their story about him reaching for a concealed pistol before they shot him?

Absolutely Not.....

Shifting gears: I don't think there's any dispute that Kate Brown, Ron Wyden, Jeff Merkely, Earl Blumenhaur, Steve Grasty & the marxist Oregon Media are loyal to the Clintons, Obama, Podestas, The many Soros tentacles & Frank Guistra (?) but of particular Interest;

A letter below from Kate Brown's office indicating communications with Steve Grasty & Boyd Britton regarding "serious concern" that people of Harney / Grant Counties & Sheriff Palmer were "sympathetic to the Lavoy Finicum / Bundy message." There's also discussion about the "occupiers travel between Harney county & Grant county." There's essentially the 1 main Road. It is a safe assumption that they discussed setting up this road block.

<http://media.oregonlive.com/oregon-standoff/other/2016/10/13/emails.pdf>

Judge Anna Brown (Clinton appointee) did not allow Ammon Bundy's lawyer to present this letter as evidence in Trial. Why Not? Would it have shown too much involvement by fellow Clinton loyalist Oregon Governor Kate Brown to squash dissent?

Another letter below from Gov. Kate Brown's office to the "Honorable Barack Obama" ☹️ confirming that she "speaks for All Oregonians" & intends to put an end to the Harney County occupation by "Armed Radicals..." Note that Kate Never speaks this garbage when AntiFa trashes downtown Portland or makes national news shutting down the annual Portland Rose Parade.

<https://www.documentcloud.org/documents/2696165-1-20-16-Obama-1.html>

Kate Brown's letter below to James Comey & Loretta Lynch demonstrating her obvious vested interest to shut down these "radical voices" of opposition in Harney County, Oregon. hmm... ☐ 2 names now synonymous with Clinton Corruption.

<https://www.scribd.com/mobile/doc/296314348/Lynch-Comey-Letter>

Finally & as noted above, Ammon / Ryan Bundy & Lavoy Finicum came to Burns, Oregon to spread a message to rural Oregonians & Expose the corrupt BLM / USFS harassment directed at ranching families like the Hammonds.

Clearly these guys have been successful in pissing off land grabbing Democrats as they did in Nevada.

For extensive research on the land grabbing bills which are tied to the Clinton Foundation, Uranium One, Podesta Group, Kentoupes Denham, DE Shaw Group, Calico Resources, ENN, etc..

Please See the attached letter from researcher Lazaro Ecenarro addressed to the President Trump administration.

I hope that the information presented here becomes useful to someone with a bigger voice than mine.

Open letter to the Trump Administration from Lazaro Ecenarro:

To whom it may concern in the President Donald J. Trump Administration,
CC: Attorney General Jeff Sessions, Steve Bannon, Secretary of the Interior Ryan Zinke, Dr. Jerome Corsi,

I am Lazaro Ecenarro. I am an American citizen who believes in the rights our Constitution and Bill of Rights grant us including Life, Liberty, The Pursuit of happiness and the defense thereof. Private land rights is no exception to my belief in the rights that are granted from the U.S. Constitution. I am originally from Miami, Florida area but currently reside in Roswell, New Mexico. Since the 2014 attempted seizure of the Cliven Bundy Family Ranch led by the corrupt Bureau of Land Management agent Dan P. Love and the USFS / BLM harassment and imprisonment of the Hammond ranching family of Burns, Oregon, I have been researching land grabbing efforts made by congressional leadership, President Obama, President Clinton. The land grabbing agenda has been heavily backed by major lobbying interests, multi – national corporations and hedge fund advisories including **Podesta Group**, Kountoupes Denham, **Quantum Fund / Soros Funds Management**, DE Shaw CO, Saban Corp., **Uranium One**, ENN and Calico Resources.

Through this work we find that the land and resource grabbing bills, many that begin by tying environmental legislation and / or litigation (desert tortoise, sage grouse, spotted owl, etc) connect directly to Lobbying groups and hedge fund firms which contribute money to the environmental litigation groups (The Center for Bio Diversity) or as we also see **“pay for play” schemes via the Clinton Foundation.** In the Links / Summaries below, you will find land / resource grabbing bills and research applicable to regions of Oregon, Nevada, Southern Utah dating back to the early 1980s. We hope that you can use this research in your efforts to bring the land and resources back to We the People and Make America Great Again.
