Details: (U) ~~(S)~~ On 11/02/1999, Lockheed Martin Tactical Aircraft Systems (LM) Special Investigator [redacted] contacted SA [redacted] concerning an incident involving two LM employees and possibly two foreign nationals. A further update was faxed to SA [redacted] on 11/16/1999, and a meeting between [redacted] SA [redacted] and IRS [redacted] was held at LM on 11/18/1999. The results of the meeting and an explanation of the incident will be spelled out in the remainder of this EC. The attached LM documents are the results of research done by [redacted] as well as interviews conducted with LM employees described more fully in the remainder of the EC.

(U) (S) It is LM's concern that there may be an ongoing attempt to elicit LM proprietary or USG classified information from them via LM employee Boyd B. Bushman. Bushman is a U.S. male national, DOB 07/20/1936, SSAN 527-44-3323, and was hired by LM on 07/23/1982. His job title is that of Senior Specialist in the Special Programs department and he has Top Secret and SCI/SAP clearances. Bushman has asked for LM to establish proprietary information agreements with Fnu [redacted] and [redacted] both believed to be foreign nationals, in order to receive "scientific data and video recording of physics experiments" from [redacted] and "wave theory" data from [redacted]. According to Bushman, the [redacted] data and video pertain to successful exploitation of gravity/anti-gravity physics. Bushman denied any "real interest" in the [redacted] data so his reason for requesting LM to establish the aforementioned agreement with [redacted] is unknown.

b6
b7C

(U) (S) The connection between Bushman, [redacted] is somewhat cloudy. According to Bushman, another LM employee, [redacted] a U.S. male national, DOB [redacted] introduced him to [redacted] and [redacted] advised [redacted] is a retired U.S. Marine who was hired by LM in March 1978 and [redacted]. His job title is [redacted] in the Business Development department. [redacted] described [redacted] as the "ultimate networker" whose value to LM lies primarily in [redacted]

[redacted] in the industry. [redacted] commented in particular on [redacted] strong relationships with U.S. military command personnel. [redacted] claims that [redacted] sent a facsimile message to LM's Prague office, which came into [redacted] and which he then shared with Bushman. According to [redacted] he only assisted Bushman in arranging for follow-up contact with [redacted] at Bushman's request. Per [redacted] Bushman displayed an interest in the mathematical analysis conducted by and allegedly developed by [redacted] pertaining to Einstein's Theory of Relativity. [redacted] stated he did not know [redacted] and that Bushman had sought [redacted] assistance in arranging a joint meeting with [redacted]. It is unknown if there is any connection between [redacted] other than their shared interest in a related area of physics. Why Bushman wanted to get them together for a meeting is also unknown. According to Bushman, [redacted] had arranged for [redacted] Bushman to travel to Prague and meet [redacted]. The three of them would then travel to Holland (possibly where [redacted] resides) where they would hold discussions and receive

[redacted] data. Based on research conducted by [redacted] it is believed [redacted] may be a Ph.D. for an institute in the Czech Republic. His bonafides are undetermined at this time. Bushman said he was unaware of how [redacted] became acquainted with [redacted] but that he believed [redacted] was a genuine Ph.D. scientist supposedly somehow associated with Prague University. [redacted] supposedly has conducted experiments uncovering five seemingly plausible new understandings or laws of physics and gravity. Bushman advised he simply wished to obtain [redacted] data and scientific evidence to conduct an analysis of [redacted] representations to determine whether or not they are valid.

b1
b3
b6

(U) (S) It was also determined that [redacted] had previously dropped off a package of information at LM's Prague office but had been requested to return and retrieve the data because no proprietary agreements existed between LM and [redacted] institution. [redacted] did return and pick up the package. [redacted] advised that LM fears this to be some kind of provocation by an unknown party who might be trying to set up LM by accusing them of illegally obtaining proprietary information. LM is also concerned about [redacted] being the true owner of the information and does not want to obtain any information they are not legally entitled to.

b6
b7C

(U) (S) [redacted] opined that based on his interviews with both Bushman [redacted] he believes Bushman would try to blame any problems on [redacted] [redacted] characterized [redacted] as a "loose cannon" but controllable if given explicit instructions. Bushman appears to be an extremely intelligent scientist, largely self-taught, who will talk down to those he does not consider his intellectual equal. Bushman has apparently made the appropriate formal requests to LM to arrange for proprietary data agreements with [redacted] institution. Bushman admitted it was tempting to simply accept [redacted] data without regard to the restrictions and laws that are in place regarding the release and removal of the information from the country of origin, LM company policy, and legal ownership of the information. Bushman stated he would wait until the proper agreements were in place before receiving the data. A facsimile from [redacted] to SA [redacted] dated 11/16/1999 indicated that LM's Special Programs section is "very interested" in receiving [redacted] data but are holding any further contact in abeyance until LM Security and the LM Legal Department give them permission to proceed further.

(U) ~~(S)~~ [redacted] research into both Bushman's and [redacted] LM personnel files revealed no remarkable pertinent information or history of misconduct for Bushman, however, [redacted] file "disclosed a history of allegations of misconduct, violations of security and classified handling procedures, and suspicious contacts with foreign nationals." When [redacted] was queried about [redacted] being a security concern for LM, he responded with the "loose cannon" comment and gave SA [redacted] a copy of an e-mail message sent to [redacted] from LM Associate General Counsel [redacted] dated 11/18/99 regarding the cessation of any further outside communication outside of LM regarding the [redacted] information. [redacted] further characterized [redacted] as being very gung-ho and action oriented. Subsequent to this investigation, it was discovered independently by SA [redacted] and confirmed by [redacted] that Bushman has recently released sensitive LM information to Jane's Defense Weekly, a British publication, which resulted in Bushman's access to some USAF programs being suspended.

b6
b7C

(U) ~~(S)~~ [redacted] also gave SA [redacted] a copy of a 09/24/1999 LM Foreign Contact Form listing contact between Bushman and [redacted] [redacted] The contact consisted of a "Sept, 1999 telephone call" and listed [redacted] current address as [redacted] [redacted] The form also listed the reasons for the contact which are consistent with those previously discussed in instant EC. There is apparently some confusion over the exact identity and origin of [redacted] Research done by [redacted] seemed to indicate that the title used by Bushman in his Foreign Contact Form may have alluded to [redacted] education, title, and institution. Nothing definitive could be ascertained however, so the attempt to positively identify [redacted] and his organization is still ongoing. According to information provided by [redacted] on 11/19/1999, a phone number of [redacted] has been used on two separate faxes sent by [redacted] along with two addresses in the Czech Republic. [redacted] advised [redacted] apparently wrote some articles for the Fusion Information Center, New Energy News, and the Institute for New Energy in Salt Lake City, Utah. [redacted] checks conducted on [redacted] appear to verify this.

(U) (S) In summation, it appears that Bushman wants to legitimately obtain [redacted] information as it may pertain to research he is performing in his employment with LM. It is unknown what connection [redacted] may have to any of this other than the fact that [redacted] was apparently going to be involved in a meeting with Bushman [redacted] before those plans got scuttled. [redacted] involvement hinges around his ability to set up such a meeting. The most intriguing questions revolve around the identification of [redacted] and the legitimacy of his information.
