1 March 2006

Dear Sir/Madam,

I have taken your name from the *Signal 2006* Source Book as I have been an AFCEAN since 1988 and Chairman of the Portugal Chapter since 1990. I am currently serving as Programme Director in the Security through Science Programme at NATO. In fact I am in charge of a special programme on Human and Societal Dynamics.

I am writing to you to bring to your attention the funding possibilities of this programme in all the areas in which you conduct business.

From the interface between humans and hardware to social engineering, the Human and Societal Dynamics programme would very much welcome your proposal.

The purpose of the grants is to bring to your events the best people in any given field. Attendees are of your choice.

In order to be able to take advantage of the programme you have to complete very simple application forms which you can find on our website: www.nato.int/science.

If you have any queries, please feel free to contact me.

Yours sincerely,

F. Carvalho Rodrigues
Programme Director
Human and Societal Dynamics
