# Executive Summary

DHS secures our Nation’s air, land, and sea borders to prevent unauthorized activity while facilitating lawful travel and trade. DHS’s border security and management efforts focus on three interrelated goals: effectively securing U.S. air, land, and sea borders; safeguarding and streamlining lawful trade and travel; and disrupting and, in coordination with other federal agencies, dismantling transnational criminal and terrorist organizations.

DHS is working to secure U.S. borders through the deployment of personnel, technology, and infrastructure. The integration of intelligence and enforcement capabilities through intergovernmental task forces and partnerships has facilitated better information sharing, leading to the increased interdiction of drugs, weapons, and currency. By focusing on the largest threats and responding rapidly, DHS has strengthened security across the U.S. borders while facilitating international travel and trade.

Highlights for FY 2022 Q4 compared to FY 2021 Q4 include:

- U.S. Customs and Border Protection (CBP) U.S. Border Patrol (USBP) encounters<sup>1</sup> decreased 2 percent in FY 2022 Q4 (574,319) compared to FY 2021 Q4 (583,664) (Table 1).
- CBP USBP encounters<sup>2</sup> of Mexican nationals decreased 1 percent in FY 2022 Q4 (156,661) compared to FY 2021 Q4 (158,851) (Table 2).
- CBP USBP encounters of non-Mexican nationals decreased 2 percent in FY 2022 Q4 (417,658) compared to FY 2021 Q4 (424,813) (Table 3).
- DHS removals increased by 64 percent in FY 2022 Q4 (32,329) compared to FY 2021 Q4 (19,720) (Table H1).
- DHS returns increased 38 percent in FY 2022 Q4 (67,804) compared to FY 2021 Q4 (49,256) (Table H1).
- DHS expulsions decreased 18 percent in FY 2022 Q4 (237,283) compared to FY 2021 Q4 (288,038) (Table H1).<sup>3</sup>

---

<sup>1</sup> In the first quarter of 2021, wording changed from “apprehensions” to “encounters” for CBP-related operations as a result of the inclusion of Title 42 expulsions because not all encounters were necessarily apprehensions.

<sup>2</sup> Many of these encounters are repeat encounters and the total number of unique encounters may have decreased.

<sup>3</sup> Title 42 expulsions began in FY 2020 Q2.

This report includes figures and tables on the following topics:

- Encounters, administrative arrests, and inadmissible noncitizens;
- Notices to appear;
- Criminal arrests;
- Authorized entries;
- Detention;
- Removals, returns, and expulsions;
- Worksite enforcement and E-Verify;
- Seizures: drugs, weapons, and currency;
- CBP and U.S. Immigration and Customs Enforcement (ICE) staffing;
- Violence against CBP and ICE agents and officers; and
- Operation Stonegarden grants.

# I. Legislative Language

This document was compiled pursuant to direction in the Joint Explanatory Statement accompanying the Fiscal Year (FY) 2022 Department of Homeland Security (DHS) Appropriations Act (P.L. 117-103). The Joint Explanatory Statement states:

*Public Reporting of Operational Statistics.*—The Department is directed to submit quarterly Border Security Status Reports and data on the removal of the parents of U.S.-born children semiannually, as in prior years.

## II. Background

### A. Overview of Congressional Mandate

This Border Security Status Report (BSSR) includes data for the fourth quarter (Q4) of FY 2022. The BSSR is a revised version of the Secure Border Initiative report, which last was released with data through FY 2010.

The original *Quarterly Status Report on the Department of Homeland Security's Border Security Performance and Resources* was provided in 2006 in response to a letter from the House Appropriations Committee. Data included in the BSSR often overlap with data in prior border security performance and resources reports; however, the BSSR excludes detailed program descriptions, accomplishments, and resource information. The list of data provided in this report was reviewed with committee staff and is described in Section B.

### B. Data Presented

There are 25 figures and 19 tables in the body of this report and 32 tables in the appendix that provide data on the enforcement-related activities listed below. This report provides data on the following categories of border security and immigration enforcement-related activities:

- Encounters, administrative arrests, and inadmissible noncitizens;<sup>4</sup>
- Notices to appear (NTA);
- Criminal arrests;
- Authorized entries;
- Detention;
- Removals, returns, and expulsions;
- Worksite enforcement and E-Verify;
- Seizures: drugs, weapons, and currency;
- U.S. Customs and Border Protection (CBP) and U.S. Immigration and Customs Enforcement (ICE) staffing;
- Violence against CBP and ICE agents and officers; and
- Operation Stonegarden grants.

---

<sup>4</sup> This report uses the word “noncitizen” to refer to individuals described under section 101(a)(3) of the Immigration and Nationality Act (INA).

## C. Summary of Changes

Tables and figures were updated with data for the new reporting period and were updated to show this fiscal year's Q4 data. (Data for previous years are "locked" and are subject to limited updates.) Small variations and updates in Component-provided data may have occurred after FY 2021. Most data for FY 2020 were shifted from quarterly to single-year reporting and/or were moved to the appendix, as indicated.

### III. Results/Analysis

DHS's Office of Immigration Statistics (OIS) compiles the BSSR from data received from DHS Components. Compilation of these data shows specifics and trends as indicated below.

#### A. Data Trends

Highlights for FY 2022 fourth quarter (Q4) compared to FY 2021 Q4 include:

- U.S. Customs and Border Protection (CBP) U.S. Border Patrol (USBP) encounters<sup>5</sup> decreased 2 percent in FY 2022 Q4 (574,319) compared to FY 2021 Q4 (583,664) (Table 1).
- CBP USBP encounters of Mexican nationals decreased 1 percent in FY 2022 Q4 (156,661) compared to FY 2021 Q4 (158,851) (Table 2).
- CBP USBP encounters of non-Mexican nationals decreased 2 percent in FY 2022 Q4 (417,658) compared to FY 2021 Q4 (424,813) (Table 3).
- DHS removals increased by 64 percent in FY 2022 Q4 (32,329) compared to FY 2021 Q4 (19,720) (Table H1).
- DHS returns increased 38 percent in FY 2022 Q4 (67,804) compared to FY 2021 Q4 (49,256) (Table H1).
- DHS expulsions decreased 18 percent in FY 2022 Q4 (237,283) compared to FY 2021 Q4 (288,038) (Table H1).

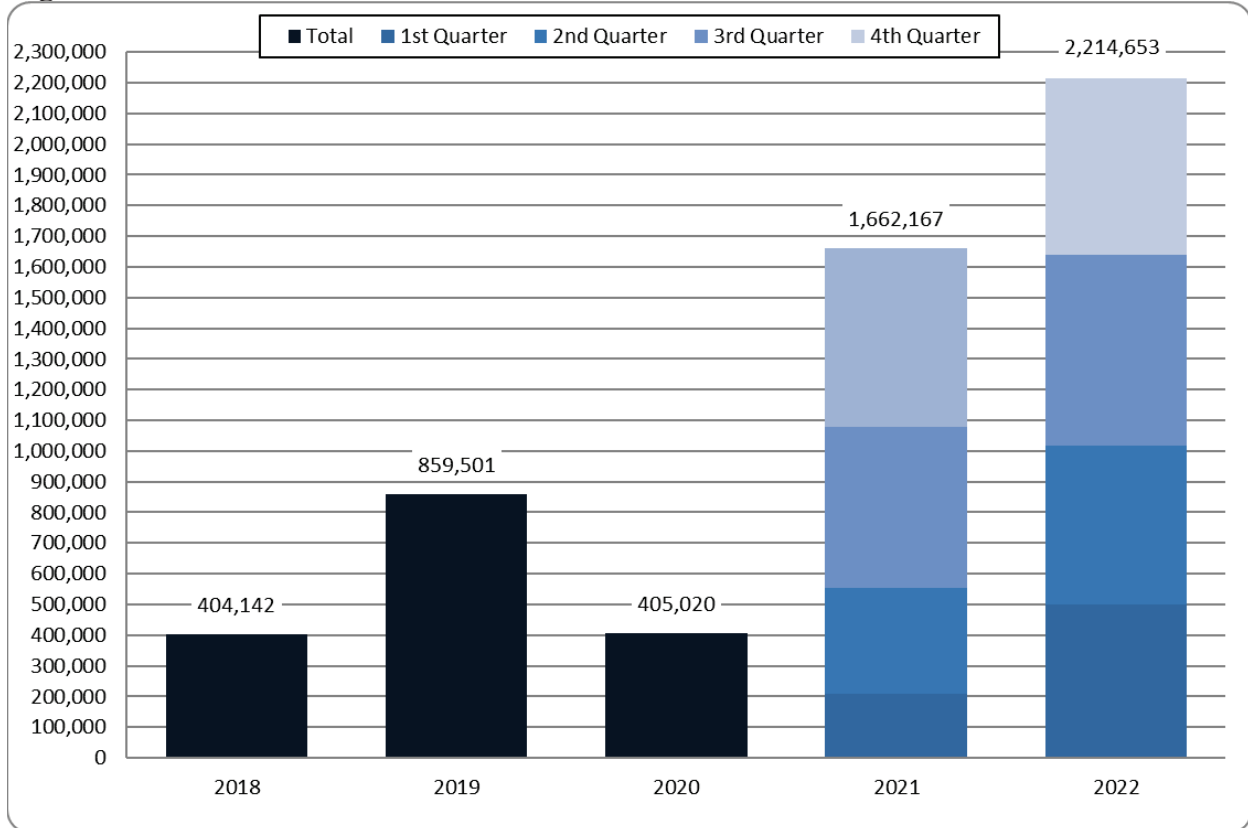

Figures and tables in this section include notes about data sources and, where applicable, descriptions of changes in definitions over time or in data compared to past reports. Quarterly data, when not included in the Results/Analysis (Section III), are provided in appendices (Section IV, Appendix C, and Data Tables). Data included in this report were provided by CBP, ICE, and U.S. Citizenship and Immigration Services (USCIS) and may differ from data independently reported by each Component because of differences in data compilation or reporting practices. Moreover, Component systems frequently are “living,” meaning that such systems accept corrections, modifications, and new entries for a previously reported period. As a result, data provided to OIS are a snapshot as of a specific date (usually annotated in table or figure notes), and numbers retrieved on a subsequent date may differ from those originally provided.

<sup>5</sup> In the first quarter of 2021, wording changed from “apprehensions” to “encounters” for CBP-related operations as a result of the inclusion of Title 42 expulsions because not all encounters were necessarily apprehensions.

## B. Encounters, Administrative Arrests, and Inadmissible Noncitizens<sup>6</sup> (Figures 1-4 and Tables 1-4)

**Figure 1. CBP USBP Encounters: FYs 2018 to 2022**

Notes: Beginning on March 21, 2020, USBP enforcement encounters include Title 8 apprehensions and Title 42 expulsions (see <https://www.cbp.gov/newsroom/stats/cbp-enforcement-statistics/title-8-and-title-42-statistics>). Title 42 expulsions are not included in USBP apprehensions data. Encounters are calculated using microdata during the period, rather than CBP USBP summary statistics, so slight discrepancies may occur between these numbers and final CBP USBP numbers in other reports. See Appendix Table B1 for quarterly totals.

Source: DHS, CBP USBP, Enforcement Integrated Database (EID) Arrest Guide for Law Enforcement (received 10/14/2022).

<sup>6</sup> An administrative arrest refers to the arrest of a noncitizen who is charged with being inadmissible or deportable under section 212 or 237 of the INA. Administrative arrests conducted by CBP USBP traditionally were referred to as apprehensions, but, given Title 42, this wording is changed in this report to encounters. Administrative arrest data are provided for CBP USBP, ICE Homeland Security Investigations (HSI), and ICE Enforcement and Removal Operations (ERO).

### C. Unique Individuals Encountered by CBP USBP (Figure 5)

With the Automated Biometric Identification System (IDENT), fingerprint records can be matched, making it possible to count both the number of unique individuals encountered and the total number of encounters (Figure 5). Because of data collection procedures, data are tabulated at the end of the fiscal year.

**Figure 5. Encounters from IDENT by CBP USBP: FYs 2010 to 2022**

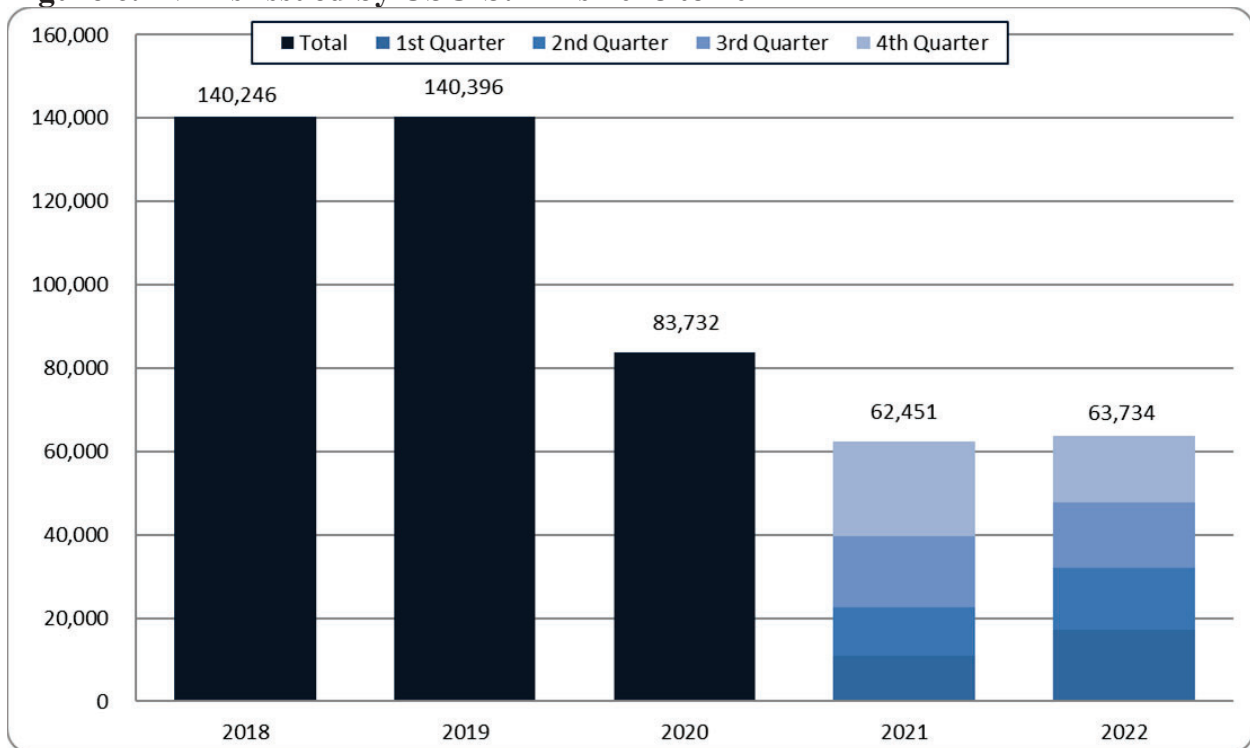

Notes: Individuals younger than 14 years of age are not fingerprinted and cannot be counted individually. Data are released at the end of the fiscal year. Encounters are calculated using microdata during the period, rather than CBP USBP summary statistics, so slight discrepancies may occur between these numbers and final CBP USBP numbers in other reports.

## D. NTAs Issued (Figures 6-9) and USCIS Fraud Cases Referred to ICE (Figure 10)

NTAs are served on noncitizens, and, once filed with an immigration court, civil immigration removal proceedings are initiated against a noncitizen before an immigration judge with the U.S. Department of Justice Executive Office for Immigration Review. This section includes NTAs issued by USCIS, CBP USBP, CBP OFO, and ICE ERO, as well as the number of USCIS fraud referrals submitted to ICE for criminal investigation. CBP's NTA issuance totals became erratic after commencement of enforcement of the U.S. Centers for Disease Control and Prevention's (CDC) Title 42 public health order in March 2020.

See Appendix Table D5 for quarterly totals. Updates to 2021 quarterly totals were made in 2022 Q1.  
 Source: DHS, Fraud Detection and National Security Data System (FDNS-DS) (received 10/13/2022). Beginning in FY 2022 Q3, data on fraud cases referred to ICE for criminal investigations include both FDNS-DS and E-Verify data.

## E. Criminal Arrests (Figures 11-13)

Arrests refer to individuals (both noncitizens and U.S. citizens) arrested for violation of a federal and/or state criminal law or noncitizens who engaged in criminal conduct and were arrested for immigration violations. Criminal arrests may be for felony or misdemeanor charges and administrative arrests pursuant to immigration authorities. Criminal arrest data are provided for ICE HSI, ICE ERO, and CBP OFO.

Notes: Criminal arrests at the POEs may be for narcotics violations and seizures (e.g., unlawful possession and/or smuggling of narcotics), immigration-related prosecutable violations (e.g., unauthorized reentry after removal, human smuggling), and any other crime involving prohibited items or commodities. See Appendix Table E3 for quarterly totals.

## F. Authorized Entries (Figure 14 and Table 5)

Authorized entries refer to the number of lawful entries of U.S. citizens and noncitizens into the United States. Individual U.S. citizens and noncitizens may be counted more than once during a reporting period. Individuals denied entry at air, land, or seaports are excluded from these data.

## G. Detention (Figures 15-17 and Tables 6-8)

Removable noncitizens encountered by CBP and ICE who are determined to warrant custodial supervision are placed in detention facilities managed by ICE ERO. Noncitizens detained by ICE are housed in local or state government facilities under intergovernmental service agreements (IGSA), contract detention facilities, and ICE-owned facilities (service processing centers). ICE sometimes uses Federal Bureau of Prisons-controlled facilities to house individuals detained in immigration custody, but this practice generally is used in limited circumstances and is accomplished via an interagency agreement.

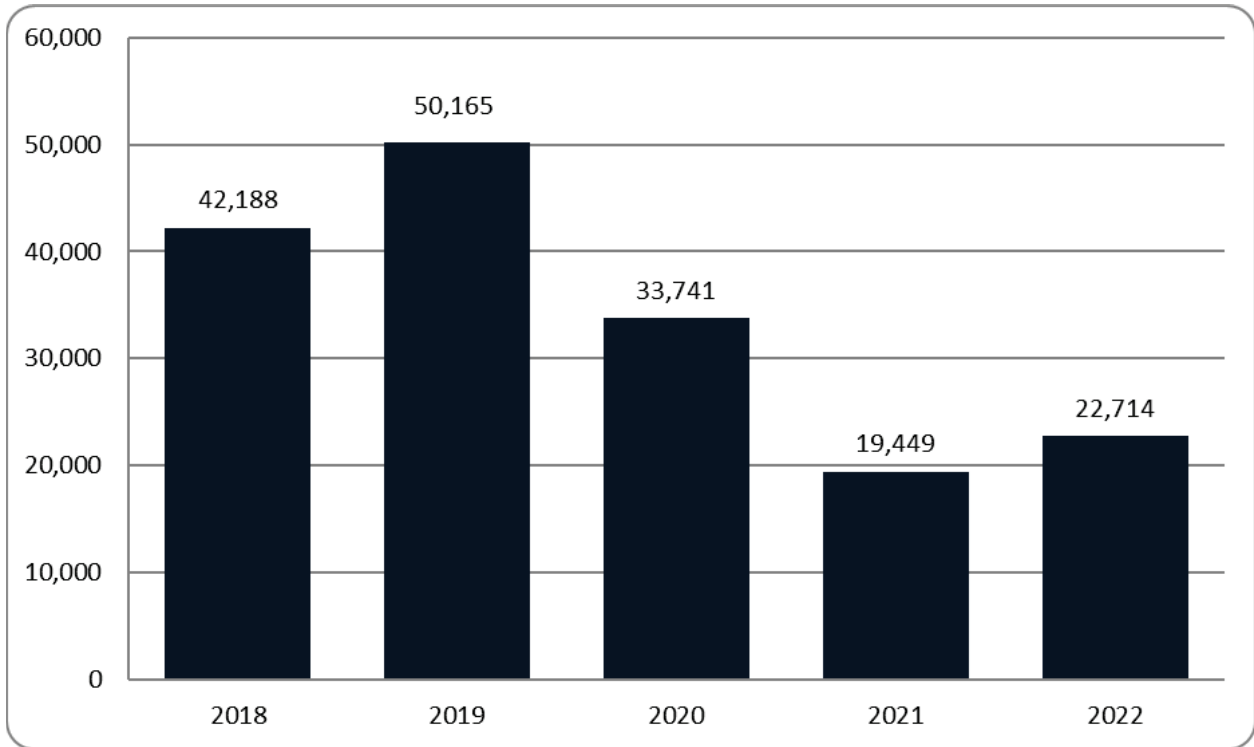

**Figure 15. Initial Book-Ins to ICE Detention Facilities: FYs 2018 to 2022**

Notes: Initial book-ins refer to the number of individuals whose initial placement into a detention facility began within the reporting period. These totals may include noncitizens currently in ICE detention. Beginning in 2010, data exclude individuals detained in facilities dedicated to housing noncitizens under the U.S. Department of Health and Human Services (HHS) Office of Refugee Resettlement (ORR) and U.S. Marshals Service purview. See Appendix Table G1 for quarterly totals. FY 2022 ICE initial book-ins data are filtered through 09/30/2022 (IIDS v.2.0 run date 10/05/2022; EID as of 10/04/2022).

**Figure 16. Average Daily Population (ADP) of Noncitizens in ICE ERO Detention: FYs 2018 to 2022**

Notes: ADP is provided in place of funded beds because it more accurately reflects the status of facility capacity and utilization. ADP is based on the total number of midnight count bed space used divided by the number of days in the requested period. Beginning in 2010, ADP excludes individuals held in facilities dedicated to housing noncitizens under HHS ORR and U.S. Marshals Service purview. See Appendix Table G2 for quarterly totals. ## H. Removals, Returns, and Expulsions (Figure 18)

Noncitizen removals refer to repatriations of inadmissible or deportable noncitizens subject to a final order of removal, whereas returns refer to confirmed departures of inadmissible or deportable noncitizens not subject to a removal order. This report includes fiscal year removals and returns conducted by both CBP and ICE. A noncitizen who is removed may be subject to additional administrative or criminal consequences upon subsequent unauthorized reentry because of a previous removal. Starting on March 20, 2020, and through 2022, CBP expelled certain persons encountered at the border on public health grounds as part of the Department’s efforts to assist in the implementation of the U.S. CDC’s Title 42 public health order to limit the spread of Coronavirus Disease 2019. High numbers of Title 42 expulsions limited numbers of noncitizens processed under Title 8 immigration authority in FY 2020-FY 2022 and therefore reduced numbers of removals and returns.

**Figure 18. DHS Removals, Returns, and Expulsions: FYs 2018 to 2022**

Notes: Data are from both ICE and CBP and refer to the year that the events occurred. Title 42 expulsions began in FY 2020 Q2, and the FY 2020 total represents data from Q2-Q4. Differences in prior time periods are due to the updating of the data series. See Appendix Table H1 for quarterly totals.

## I. Worksite Enforcement and E-Verify (Figures 19-24)

Worksite arrest statistics are shown for employers charged by ICE HSI with violations related to employment of unauthorized noncitizens and employees charged with a variety of crimes including identity theft, fraud, tax violations, or other related crimes. Worksite fines are reflected in Figures 19 and 20 below.

The number of employers registered for E-Verify and the number of queries each year also are provided below. For the purposes of the E-Verify program, each query represents one new hire or new verification.

Currency data include all seized monetary instruments (bank account, cash substitution, checks, money order, prepaid stored value card, promissory note, savings bond, stocks, traveler's checks, cash, currency, and virtual currency). The weapons seizures reported in this table include firearms only (not ammunition). All reported quarterly statistics are accurate as of the date that the report was run. The database is "live," and the statistics are updated constantly so these quarterly statistics may change over time and may not add up to the year-end total.

## M. Operation Stonegarden Grants (Table 19)

Operation Stonegarden funds were provided to enhance cooperation and coordination among local, tribal, territorial, state, and federal law enforcement agencies in a joint mission to secure the U.S. borders. States and territories eligible for the program may border Canada, Mexico, or international waters. The table below, updated at the end of the fiscal year, reflects funds appropriated to the Department from Congress and how they were distributed.

## IV. Appendices

### Appendix A. Glossary

**287(g) Program** - A state and local cross-designation program authorized by the Immigration and Nationality Act (INA) § 287(g). This program provides specific officers of participating state and local law enforcement agencies with the necessary delegation of authority, training, and resources to perform certain functions of an immigration officer under the direction and oversight of U.S. Immigration and Customs Enforcement (ICE).

**Administrative Arrest** - The arrest of a noncitizen who is charged with removability under INA.

**Average Daily Population** - Average daily detention population for the months included in the reporting period.

**Average Length of Stay in Detention** - The mean length of stay in detention from the time of initial admission to the time of release for those noncitizens released during the reporting period. Noncitizens in detention at the end of the reporting period are excluded from the calculation.

**Consequence Delivery System** - A U.S. Customs and Border Protection (CBP)-developed system that guides management and agents through a process that is designed to evaluate each individual apprehended by the CBP U.S. Border Patrol (USBP) and to identify the most appropriate consequence on the basis of the individual's crossing history. The Consequence Delivery System initially was implemented in the Tucson Sector in January 2011 and now is deployed across the Southwest Border.

**Deportable Noncitizen under INA § 237** - A noncitizen in and admitted to the United States subject to any grounds of deportability specified in section 237 of the INA, 8 U.S.C. § 1227. This includes, but is not limited to, noncitizens who are in the United States without authorization because of fraud or misrepresentation or who entered with authorization but subsequently violated the terms of their nonimmigrant classification or status or committed a criminal offense that renders them deportable.

**E-Verify** - An Internet-based system administered by U.S. Citizenship and Immigration Services (USCIS) in partnership with the U.S. Social Security Administration that allows employers to verify the employment eligibility of workers electronically.

**Encounter Data** - These data include USBP Title 8 apprehensions, Office of Field Operations (OFO) Title 8 inadmissibles, and Title 42 expulsions for Fiscal Years (FY) 2020, 2021, and 2022.

**Expulsion** - When a noncitizen is expelled under Title 42 authority to their country of last transit or, if a noncitizen cannot be returned to the country of last transit, to their country of origin.

**Inadmissible Noncitizen** - A noncitizen ineligible to receive visas or ineligible to be admitted to the United States on the basis of one or more grounds of inadmissibility described in section 212 of the INA, 8 U.S.C. § 1182.

**Queries** - For the purposes of the E-Verify program, each query represents one new hire or new verification.

**Removals** - The compulsory and confirmed movement of an inadmissible or deportable noncitizen out of the United States based on an order of removal. Ineligibility to remain in the United States is based on grounds of inadmissibility under INA § 212 or deportability under INA § 237. A noncitizen who is removed may be subject to additional administrative and/or criminal consequences with respect to subsequent unauthorized reentry owing to the fact of the removal. This report includes removals effectuated by both ICE and CBP.

**Returns** - The confirmed movement of an inadmissible or deportable noncitizen out of the United States not based on an order of removal. Ineligibility to remain in the United States is based on grounds of inadmissibility under INA § 212 or deportability under INA § 237. Noncitizens may withdraw their applications for admission and/or choose to depart the United States and return to their home countries in lieu of removal proceedings. This report includes returns effectuated by both ICE and CBP.

**Seizure** - Taking physical possession and/or control of property, merchandise, or other articles from the possession or control of an individual or establishment.

**Violence against CBP OFO Officers** – Actual or perceived physical threats or elevated use of force against CBP OFO personnel. Along with physical assaults, violent incidents involve vehicles being operated in a manner that poses a risk or harm or the use or intended use of a deadly weapon.

Notes: Criminal arrests at the POEs may be for narcotics violations and seizures (e.g., unlawful possession and/or smuggling of narcotics), immigration-related prosecutable violations (e.g., unauthorized reentry after removal, human smuggling), and any other crime involving prohibited items or commodities. The number of CBP OFO criminal arrests reported in previous SBI reports incorrectly included some records of inadmissible noncitizens who were not subject to criminal charges.

These totals may include noncitizens currently in ICE detention. Beginning in 2010, data exclude detained individuals who are held in facilities dedicated to housing noncitizens under U.S. Department of Health and Human Services (HHS) Office of Refugee Resettlement (ORR) purview.

Notes: The fines levied in FY 2017 would have been consistent with the previous year; however, the successful conclusion of a large-scale, multiyear investigation resulted in a fine of \$95 million against one company. This specific fine accounts for FY 2017’s relatively large dollar amount. All reported quarterly statistics are accurate as of the date that the report was run. The database is “live,” and the statistics are updated constantly so these quarterly statistics may change over time and may not add up to the year-end total.
