10 x and the world  
We have given them massive  
numbers & what they can deliver

Mark Jansen: 100% possible but challenging. Regulator. 20m loan  
super deduction. Accelerate more than. We need to consider future  
tax regime. we lose 10m loan. More about on taxes &  
rates in other years. Get barriers knocked out. Name of the £56  
can be spent yet

Clive 4.5m loan per year. Accelerating. Trading  
social distancing rules. accelerate. In some time can be done  
in better. Skilled. Wayleave. Access to multi-tenancy units.  
Not as much like before. End time for all new build.  
it should only be putting like before into new builds. Building on

my Mark 7-8m. up to 10m

John Vignard . great job w. market review

5-6m by end of this year. The 500k per year  
it used to spend on TV. with  
apbit programme. Fixed network at half of  
this cost 7-10m. Easy to wayleave process

John Toback : we have partnerships w. developers &  
get wayleaves. We can make £3m  
available

John . further evidence. No dead investment

Nick Harrison . Build acceleration is excellent

Nick 8m ≤ Certificates

Alain Dault : drive of infrastructure.

→ price

→ make it  
work  
→ speed up

# Salmond

- 1) SNP will win.
- 2) opposed to 21 independence referendum
- 3) Voted before Alex. Murdoch.
- 4) Supports towards Sturgeon. He didn't break industrial code
- 5) we want to raise status of the independence.
- 6) Angus Savar: go down with
- 7) Labour will work with SNP to keep it out. Makes unionist votes unlikely to go to Labour
- 8) Victoria was Scottish Labour will work with us.

Scottish public upside w. Nicola over Salmond. They start to gain seats on the regional list. So we had to lead the Labour.  
They opened up self Labour vote lower for people  
can't vote Labour. Douglas Ross took on Nicola.  
greater danger on party list vote.

Steel - Kwasi

97 countries have steel capacity. You are spread. I  
have no capacity  
to produce tiny amounts of steel but we need to  
level up.

Not competitive  
relative prices are high.

Notes

Monday.

Midweek 2

sum

FOIA

AZ licensing, have come with pressure from  
~~transparency~~ politicians. CEO says still to hard  
work at date run in. better place.

Keep monitoring the situation. JCV keep monitoring.

EMA announcement next week.

AZ will allow each country to proceed  
acc to own regulator

Metting with gov view that continue to offer vaccine acc to  
national regulators. A lot of uncertainty. Different  
situations. EMA announcement tomorrow. Much  
better w. one 40s. People

JVI : finalised MHC/CHM problem. final  
content. Slides among regulators. Moderate  
view of what off at to public. Phase 2 continues but  
data at end of each decade. given uncertainties  
about signal - delays decisions until you have  
enough data. 40-49 MHCs  
overwhelmingly in favour.

CVI. Children have 1, 2 signal. Signal  
w. A2. Signals w. low vaccine less clear.  
Data don't show a significant increase  
in cases & due to the overall low level of infection  
or low rate cluster of events. Statistically large  
subt. The risk of the vaccine must be low compared  
with the risk of wild. 1 in 6 has dotting problems.  
The dotting problem nature of A2 is under 30s.  
At 60% of a signal per vaccine. It's a kind of  
intermediate - the more and we have deployed  
gives us a signal. Probability. Given by age.  
~~30s~~ 18-29 5 outbreaks per million  
30s 3-5 deaths  
above 40 below 1.

VST like any other vaccine age  
groups. Young people have a little  
immune mechanism.

Don Whitty. Debate to be held a lower  
age. A2 started going into teenagers.  
I wanted to stabilize at under age level.  
CVI - more of a risk for over 40s

It don't have Booster children.  
Common and of uncertainty. Poll  
A2 mRNA or Pfizer haven't been used --  
of very quantities. By us have  
such the same problem  
possible or

Early

DNA's approx 2% to 5%.

We need to think about when MTHFR cases are published

60 cases — 12 deaths

If we get supply we are expecting — we do still get a 1st dose by Sept 2 & September we may have AZ

Hygie, Jansen, Moderna, Novavax

and 0

Covid-19

Vaccine  
roll out

JVI

JCVI yesterday arrived at  
conclusion that it will not go any further  
until CHM had met. If no  
specific age related regulatory restriction  
as JCVI will commence just in phase  
1 — second day of the phase  
group 1-9, & then commence  
phase 2 just April 15. Then carry on  
for 40-49. Then pause. Then  
continue 30-39s. But then  
make a further assessment.

Expert group looking at how much  
CHM 3pm to afternoon. Hope that  
will not involve age specific cut  
off. But can't be sure. EU (WHO)  
will go at 4pm afternoon.

EU / WHO will say down to the  
to make decisions. Break point  
with age 30s. They are going to  
say that it is essential but with benefit  
strongly in favor of vaccinating  
the children for MMR2. No  
statement about age cut off.

Carry on with JCVI

Spiegelhalter a first public  
communication of risk.

✓ We don't know if health care  
workers will get 2<sup>nd</sup> dose.

- AZ
1. Regulator again says.
  2. Health care workers now delayed -  
3. What do we do? We haven't  
finished heterolog. 3. This will settle  
people will accept 2<sup>nd</sup> dose.

855,000 2<sup>nd</sup> dose AZ

635,400 1-9, over 30, AZ

Staff more likely to get card

We are doing heterolog.

Next week voting for 1-9.  
over 86.6% for 50-54. get to 9/10  
93% for over 54%.

who decide?

- people in UK can use boot camp.
- Job centres back west money
- unemployment set to peak at 2.2m
- Lack of people in productivity
- HND - only 10,000 done last year for 200,000 plus
- Short of carpenters, engineers, builders, plumbers
- 2.1m in higher education
- Big gap at level 4/5 level. we need the technical qualifications.
- we have more people not qualified for the job
- Falling number of adults willing to work
- Less training of people at work
- 2. Skills & Productivity Board. Van Kooijen
- Strategy of various stuff.
- Skills & Productivity Board adults.
- apprentice growing
- Skills boot camps
- Traineeships → get more people into work placements
- T-levels going up to 70,000 - 16-18 yr olds
- B fed. quality across 65% improved
- SWAPS Sector based work experience
- Does it translate to employment & productivity

Fig, digitized/cashier/sound came - not a  
good thing. Skills gaps and barriers.  
Bonus on employment for PE deeps

Debtors on the levy - Skills data challenges

You have to treat them as children

Steve Barclay How do we ensure it is employer led  
Big focus on profit

Funding time - 1st interventions. We need data & courses

No profit courses on track - Employers' need

Employer

NI legacy - Brown

Victim payments

Blended been difficult. Edge cases - concern about policy in  
power. Judge would say No to RPT gov.  
NIO have no idea

Brown Lewis

1. Statute of Limitation - case of Chen been brought.
2. Policy & legal approach. BUT we can legislate  
for this before summer recess.
3. The document to get out an indication of changes will  
appear.
4. We can bring a criminal presentation as well.  
- Brown getting into court is low
5. Statute of Limitation is the only way you can say this one
6. Queen's Speech May 11. Clinton  
Mandelson & Brown also a James.
7. Muslim after trouble
8. Speech to Taoiseach
9. Puts trouble in clear view of court
10. More a formalism than ever before
11. You could only be presented for genocide & torture
12. It's advice 2 complaint

Victim payments.

Formulation of better advice to stop absurd payments.  
But he thinks we won't see that type of application  
McAlinden - the senior judge would walk away

Bobby Storey - treated a shuffled in Acts  
by general. My brother's rule,  
Edwin Pook - almost the same. Whitmore  
proud. PSNI brought in independent advice  
pale. DPP said as it shouldn't be  
presented.

figuring prior to presentation. Overcautions.  
Students ambitious

Rishi : ① Not been better than anticipated. GDP up a bit.  
GDP 8% lower than before pandemic. Economy seems to  
adjust. Vaccine rollout & budget firming up confidence.  
Consumer confidence back at where it was before lockdown.  
Deposits people have been withdrawing. £180bn. Deloitte  
optimism lasted for 13 years.

② Labour market. Unemployment at 5% - was 4%.  
Coming into crisis. 800k have lost jobs. Still a  
problem. Those numbers will get worse. Half job losses -  
UK-25s. Fastest growing rate of older people.

③ FISCAL. Debt burdens. Large we have interest rate  
sensitivities. 1% move in interest rate = £20bn in  
debt. Interest rates have tripled. Significant tax cuts.  
We want to keep these low. Focus on key priorities.  
We need fiscal control.

Reverse. Leads to supply & living. Payment of benefits.  
Free to go. 600,000 vacancies - 2m people looking  
for work.

Rishi : Improved sentiment. Good budget. Business  
leaders in a different place. Different sectors have had  
different probs. Slide to roadmap.

Quin : Great unemployment

Quin : Focus on regional rebalancing

Advanced  
principle  
of competition

broadcast

We created this w. absolute horror. It's a threat to  
the whole pyramid of football. A huge disappointment.  
Premier League remarkably successful. Matched in  
commitments. Anyone can go on with it. Starving of  
resources. Fan-led central good. But the rest.

Tim Pargeter : we're a central sports body. Superstar in  
superstar law. Superstar. Review. Give her (legislative  
law). She creates and compares law.

Text Law : Super. We want to deal up our opinion to the  
of the threat to meritocracy. End to open competition.  
We wouldn't qualify as merit. We are angry about

Duncan Dorsdo. It looks like it's continuing.

No rule. Legislation is going to be necessary. We need a  
strong compulsory mechanism. Give them a rule to  
a statute

Make Bullinghoun <sup>FA</sup> : We can sanction a match where  
players play against any club. The rules are correct.  
Rules OK. We should say. This new superleague which have  
an solidarity. FA cup / Premier

Richard Masters : Premier League. 14  
clubs who aren't in it.

Unique position of vulnerability. Either you believe in  
the whole pyramid or you don't. Hope it will be  
conclusive. Strong signal to broadcast partners.  
Happy participation in fan-led review.

# Social care

1M in social care - 690,000  
adults

1.5m work in social care.

paid £8.50 - LESS than retail.

10% of total are 65 population free costs  
of more than £100k. & to star 90% don't  
have. Some people have to sell their home  
to pay cost of care ... how many?

Savers are penalised because they  
come up for their decumulation whereas  
does not.

Care home workers have no qualifications.  
but have to work paid working after the  
most vulnerable.

Workforce Sustainability: Ageing;  
Ageing. → relationship w. local care sector

Sector now impatient. Europe focuses on the  
catastrophic costs issue.

We have no social insurance scheme, unlike the  
Continents.

Labour - aiming for universal care.

# Vaccine development

Keep volume up a 2nd dose

What about JCVI making it difficult to  
bring Nov for U-40s as well as for  
U-30s

Dr Jundt before Oct.  
Mon 11/10 at 10

## Transmission

Transmission - We should have offered all adults by July 31  
2 potential probs - if JCVI changed to 30-39s but  
any people in 30s

JVT  
Supply where we stayed then JCVI probably not used  
to make against use of AZ in 30-39s.

Big meeting Thurs. Public health vs individual health.  
Is not for forward - potential 3rd wave. The old  
recipit drugs

Pfizer / Moderna for U-40s

Pfizer update - July 15 to 16 can pull forward some  
numbers - 3m.

Moderna overpromised - 100 people dead. Significant  
delay

Vaccine is for 100%

end of July August. Mhi. we want to use  
on H2 in doses but are cheaply sent.  
System has 3.2 in doses - stock -  
need to get in places which need it

AZ you get response to the  
serum as well as the vector

COVboost - Novavax - Valneva  
specifically.

re my yw Novavax to be accurate whole  
range

JCVI asking us when to vaccinate  
ourselves.

My my decide to go. Ripe  
whether my have a.  
partly, but by the antibodies last.

87% of our 80s have Wc  
2nd dose

75-79 yr olds 91% 2nd dose

70-74 70-8% 2nd dose

Or just

that way you get forward a target  
it can be done & get what we want

# NERI

16. criminal justice. Justice delayed is justice denied. Regional variation. Every part needs to up its game. Every part of CTS held to account. Clean with investigation. Must suspect be released or charged - Break up each step of process. No incentives individual interventions to produce a scorecard. Highest pressure - one crime appear online. Scorecard a Jan 2022. We need targets for timeliness.

Education. Poorer have suffered most. We don't have a baseline. More taking. Teacher training. There. It can make a big contribution. (Lost evidence about it going too slow).

NHS I see a waiting CTS. Suppressed demand. NHS not operating 100% capacity while leading w. elective. NHS developing accelerator initiatives. Redesign national pathways. We need a new public face - we don't have the guarantee of resource.

Budget: Scorecard - but means by which we share information. Good news. This comes in current context - sitting rid of more cases than receiving. Disincentives. Bringing together agencies & decision-making into one. It may well be that we are running. We need better.

It's: How victims feel. Best practice. Higher practical practice & focus of how victims are treated. Main plan - training more people to come into analysis space. So we don't get all the backlog - Large review small offences.

300% deterioration in last few years —  
since 2016. geography, data, reports.  
Key questions cannot be  
answered.

DFE Yard. Huge educational  
divide. Children now  
2.5 — 4.5 months behind, missed 115  
days' education.  
Educational gap widening.  
Well known — physical / mental health  
impacted. Broad package &  
clear roadmap. Multi-year plan — plan  
for next 5 years. Children who have  
no social interaction. 6 different metrics.  
Key step 3 — what's  
done measures in place.

Math : The will cut as stake for writing lists now  
that it won't work. This will get worse before  
it gets better. 6-75 in fewer patients  
just writing list. 12 in appointments  
not done. cumulative waiting list is  
a small difference between 2 very large  
numbers. We only need 1% more  
activity — 4-7 in — was 4.4. If 83%  
of demand came back we need 18% more  
activity — which can come from  
free resources. We are getting  
activity made above 100%. In less than  
2 years made for new screen stuff  
but not 100% ready. Diagnostics  
before. Treatment — operative

... use are 65. get it put  
list here prominently

## CST

- 1) data - by variations
- 2) modeling -
- 3) reform - could have more appetite of  
unburden change. More X - departmental  
work
- 4) education \$1.7b already for  
delivery

(Kevan Collins)

How do we support our kids.  
Evidence of loss is huge. 8-5 across the  
on average -

early reading. Dedicated instruction to build  
phonetic distinction - Rules before rules.  
By have built all the compensatory lemons -  
we will see an accumulated loss

No natural recovery. At-tainted schools  
By are not where they should be. Hard data  
tough argument. We don't know - we may  
lose all the advantage of early intervention  
School closes for weeks and months -  
6 months school -

Risk of growing inequities in the system

330,000 finishing FE. We want to make one

## inlets in Ntts

Referral : if you want to see a hospital  
doctor you have to see a GP.

There were 6-8m fewer last year

of those 3-4m will come back

Some of them will go back to their GP.

There are 300m GP appointments every year.

You can be treated on a Ntts waiting list

You can have a hospital appointment -

Or can try a lot & say this is serious  
& you are still on the waiting list

Or try say have a test & test tubes  
1. much longer

The waiting list is the period from referral to  
treatment. - meant to be 18 weeks.  $4\frac{1}{2}$  months

People are waiting less time.

New to get a test set up. Risk of another peak of  
Covid

Endoscopies - we don't do as many  
endoscopies as we used to

We need to place the people at risk of  
get the treatment.

Give the data to the patient so you can  
see what's going across 5 hospitals  
You legal right to decide where to go

Hospitals get competitive.  
Systems will be open

only one restriction. If we impose limit on one country  
least visa, you need them for all.

Actors. Musicians. But not just them.

Schengen controls.

Dover. St Pancras. Heath - missing.

Some mobility perhaps w. some air

It will stay bumps for a few months, &  
impr. by run strategy on EU interests.

Down - Don't open negotiations Don't be  
a supplicant. Broadly European  
approach / more positive. Le Drian Abirgaphish.  
Hilko Mass. Gibraltar deal has need to go up.  
Be agile. In due course it will become easier.

Michael G. Provide people w. information.  
Seems a better deal w. individual  
members. What do they want from us?

John: we made a choice. Borders. A single global  
system. TCA was hard fought. We should not  
be conceding to commission. Look at Greece. Italy. Barrie.

John: agree. Recognition of professional  
qualification. Keep going

John: not going to be possible to have separate  
trade deals w/ supranational

Truss : accelerated EU action a trade. Metoo  
Fit us in our temple us. By 2030  
60% of middle class

IRKELAND

Rebecca Ellis.

Period of unrest. Disorder. Difficult summer  
ahead. An approach to the

Protocol. 1. Michael can have a legacy. He can  
be part of it. He is on a dark. Protocol in the  
interests — challenges to that. Can two unionist  
leaders in last 10 days. Movement of unionism is  
to the right. Protocol is not public issue. Real  
role of Sir John Birt Minister. Coalition within  
good place. Future fail / the fact falling away.  
No chance unionists accepting SE for Minister.  
Protocol plays to all these issues. 2. Legacy, the  
war being marshalled by DFA. Allen, Power, Blair,  
Clinton all high to the right way to go. Stormont has  
not the right way to go. Information, records, reconciliation.  
Don't want to be with. Stability. Reconciliation.  
Integrated education, business. Stability is going to  
happen. We must do a package that is good for  
NI

Paul Johnston. Taoiseach doesn't want constitutional  
change. Convergent median then interest. E-W  
dimension. Biggest threat is risk of anti good  
Friday act unionism. Make sure E-W connectivity  
as well as N-S. E-W as well as N-S.  
Unless we make it easier to do global

Continues w. computer says no -  
 proportional to risk. we need to separate to  
 the killing. Stomach House may be right but  
 not deliverable. In function terms, reconciliation.  
 Families will end up being disappointed. If we can  
 put some substance to shared island concept  
 legacy as its structural - Process. Not proportional.

gone. Why is legacy idea hard for Dublin? Distress  
 at soldiers being dragged before CBS -  
 but unintended can move about protocol.  
 Easier to land legacy. Dublin can take down critics.  
 Protocol a much bigger problem. Why won't debug the  
 protocol. EU have told us 2 unionist moderates -  
 Edwin Poots could be unionist leader in N. We have to  
 brace ourselves for the trip. Ulster unionists always  
 fear betrayal. Dublin has taken consciousness  
 about unionism. American involvement

SDLP will walk away. SF will stay a stomach.  
 May -son wants to be a serious player - trying to  
 remove Michelle

Day - Start w. some else. Try to deal w.  
 Dublin's choice to fall back on EU - same but  
 not so much judging the protocol

Rosko: Pascal Donohue President of the group  
 vs similar arrangements support schemes.

Travel lobbying.

Cornel. UN envoy. All-out war.

Angela Rayner - breaking from 100%.

Rob Buckland

Public independent inquiry. Chair of  
dent. UK inquiry. warmly welcomed by  
public.

Matt: learn lessons now. Keep learning all the way through.

Not freeze response in crisis. Huge amount of resources.  
Massive reform programme. Overly legalistic. Huge costs.  
Contaminated blood supply. Timescale, do personal  
involvement must be done early.

Michael Ellis AG: medical professional.

Indian variant 9.45am

Some say it's 60% more transmissible than  
B117. Others say it's mostly just large variants  
Ches. Does reinforcement to ~~reinforce~~ get message  
straight - Narrow it down. Cd peak peak earlier  
ONS data no wider up. Ntts data steady.

Pedicle - We don't know if it is vaccine escaping.  
No good handle on how fast it is spreading.

Blitz ~~variant~~ Matt - It is more transmissible.  
Case almost entirely among people not vaccinated.  
It accentuates current plan.

40 - 49 — 69%.

45 - 49 — 78%.

ONS still falling. 1 in 1340.  
significant fall

Age breakdown. Still not seeing an increase in prevalence  
Rate for the whole country to be low.

100 positive cases.

Kent variant continuing to fall.

number of admissions falling 76

Below 1000 a day

9 deaths per day a typical

10,000 deaths

Indian variant . Difficult to contain in NW.

850 confirmed cases. Doubling every week.

Kent variant falling. Predominance of Non KENT variants  
rising. Cases mostly among the young unvaccinated

## Notes week

one: taking any too large of people for vaccine is wrong.  
Prod of vaccine will not. Protocol. interest has subsided.  
Dissatisfaction w. protocol of course heavily felt

Michelle: vaccine programme has been well taken up.

Makes steady progress. Prepared for future wave.  
Est. Death coming by 75 years. More of us want to  
go backwards. Need to make policies work for future.

## Vaccine rollout

### Emily Lawson

Last week was last week of 2nd dose month  
- a bit late.

74% of 40-49.

Now back to 1-2 in first dose per week  
we will have loads of inventory.

400,000 doses of Moderna in stock

90% of our total week -

4.5M doses A2 in stock - 1.5M of our total week's

300,000 of which is for 1st doses, the  
rest for 2nd doses.

0.7M Pfizer 1st dose 400,000

3 types of inventory

Christiane Georgieva IMP

David Miller - take care of our  
Carbon pricing. We can't let the economy to  
adjust fast enough w/out it  
Carbon price floor.

Carbon price floor EU, US, UK  
It can be tax, or trade

23% of emissions covered by Carbon price  
We have to go the wrong back to the  
Cap & Trade. You can emit more but  
only if you buy credit.

ATG Indian variant

Patide V. Sage. Spread India variant. Version 2.

(has spread in Bolton & London. No

fatality can disease severity is worse. Transmissibility.

1000 genomics confirmed cases. March / early April

came in. 400 cases in Bolton. Looking for 5-6

days out has declined but 5-gene positive - day 6

British variant. Doubting time in NW 4-5 days.

Faster in NW. Younger age groups. Unvaccinated -

No change in hospitalization. Possible decrease -

Bolton. Home origin in Bolton. Don't

spread to surrounding areas beyond Bolton. This

virus showing more transmission than B.1.1.7 in

unvaccinated. Not clear if that is biology or

the host / culture / households etc. Genomic

changes comparable w. it being increasingly transmissible

- may be up to 50% - but we don't know. Could

be lower. Only just taken off a cruise in India.

Could reduce vaccine efficacy a bit, but not as

much as African variant. Vaccine might

maintain efficacy against severe disease &

death but not so much against transmission

so earlier, earlier, more widespread than you

want it.

Susan Hepkin 1-2 cases per day

3 people in intensive care.

275 cases who have had 1 dose

- rest of 22 no dose.

ATG  
vaccine  
unknown  
has it?  
London?  
incoming for  
elsewhere?  
which people?

Tom White

Case rate still flat & decreasing

We are at a stand. More of them have no link to travel. This is much faster than S Africa variant.

72 clusters. Blackburn, Redford, Sefton

Cases in 22 of 33 local authorities in London

NW of London. East/NE. Has spread into wider

We have gone from a mix to B1617.2

Cambridge Wells.

97% at least one dose

95% of over 65s.

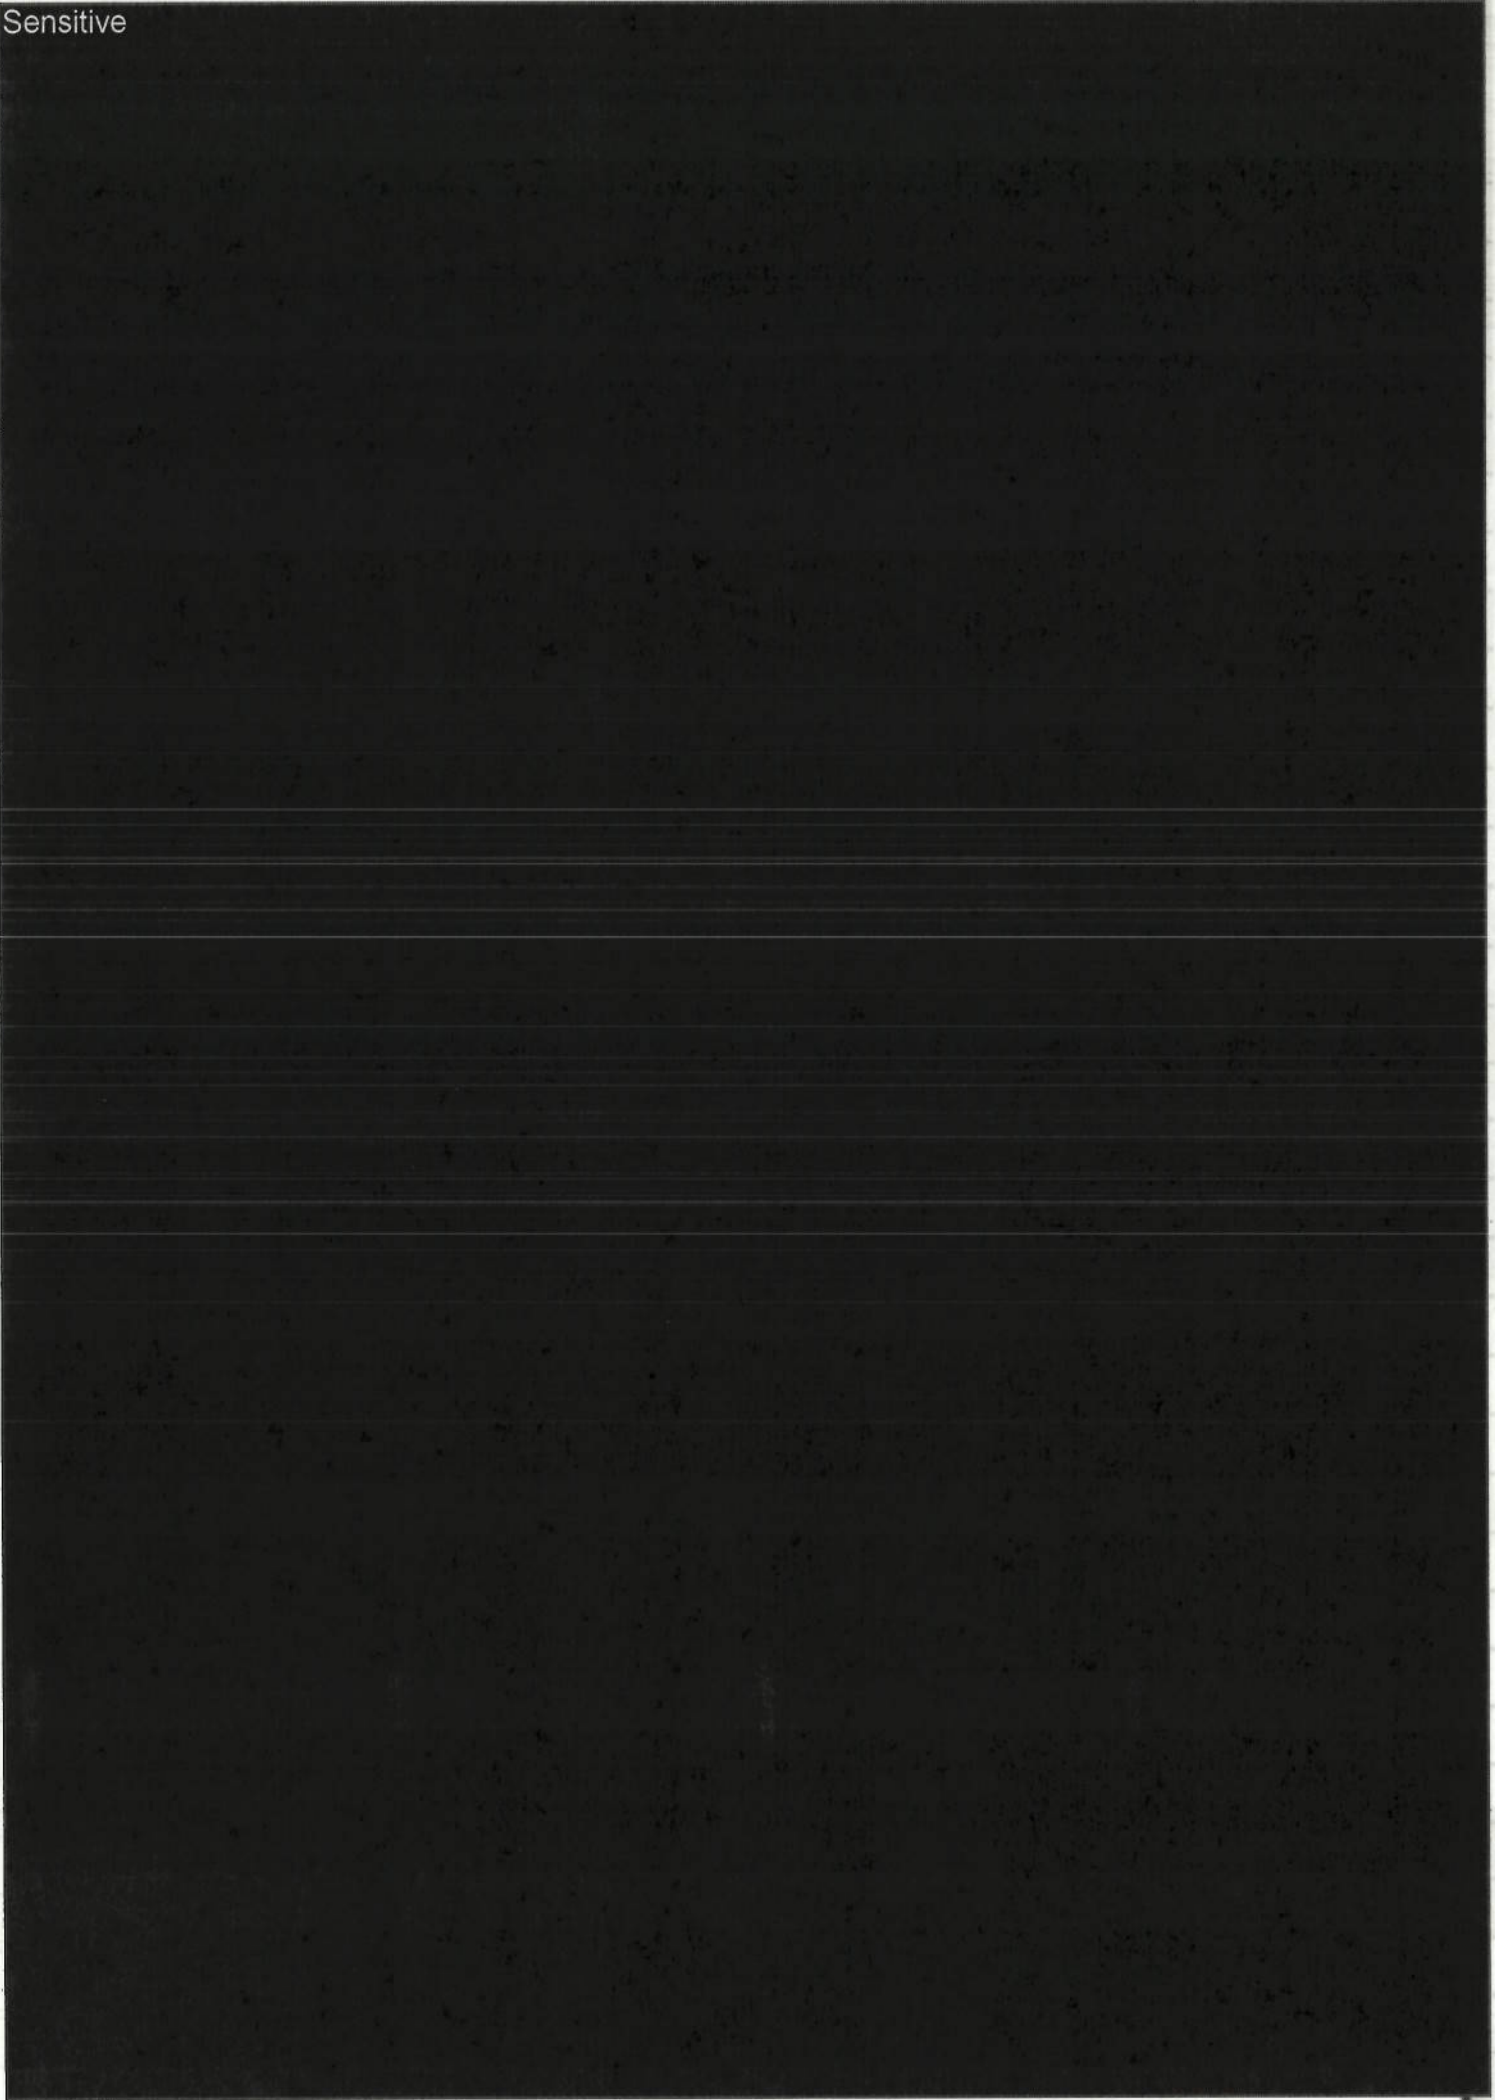

You get so many cases once you have opened up.

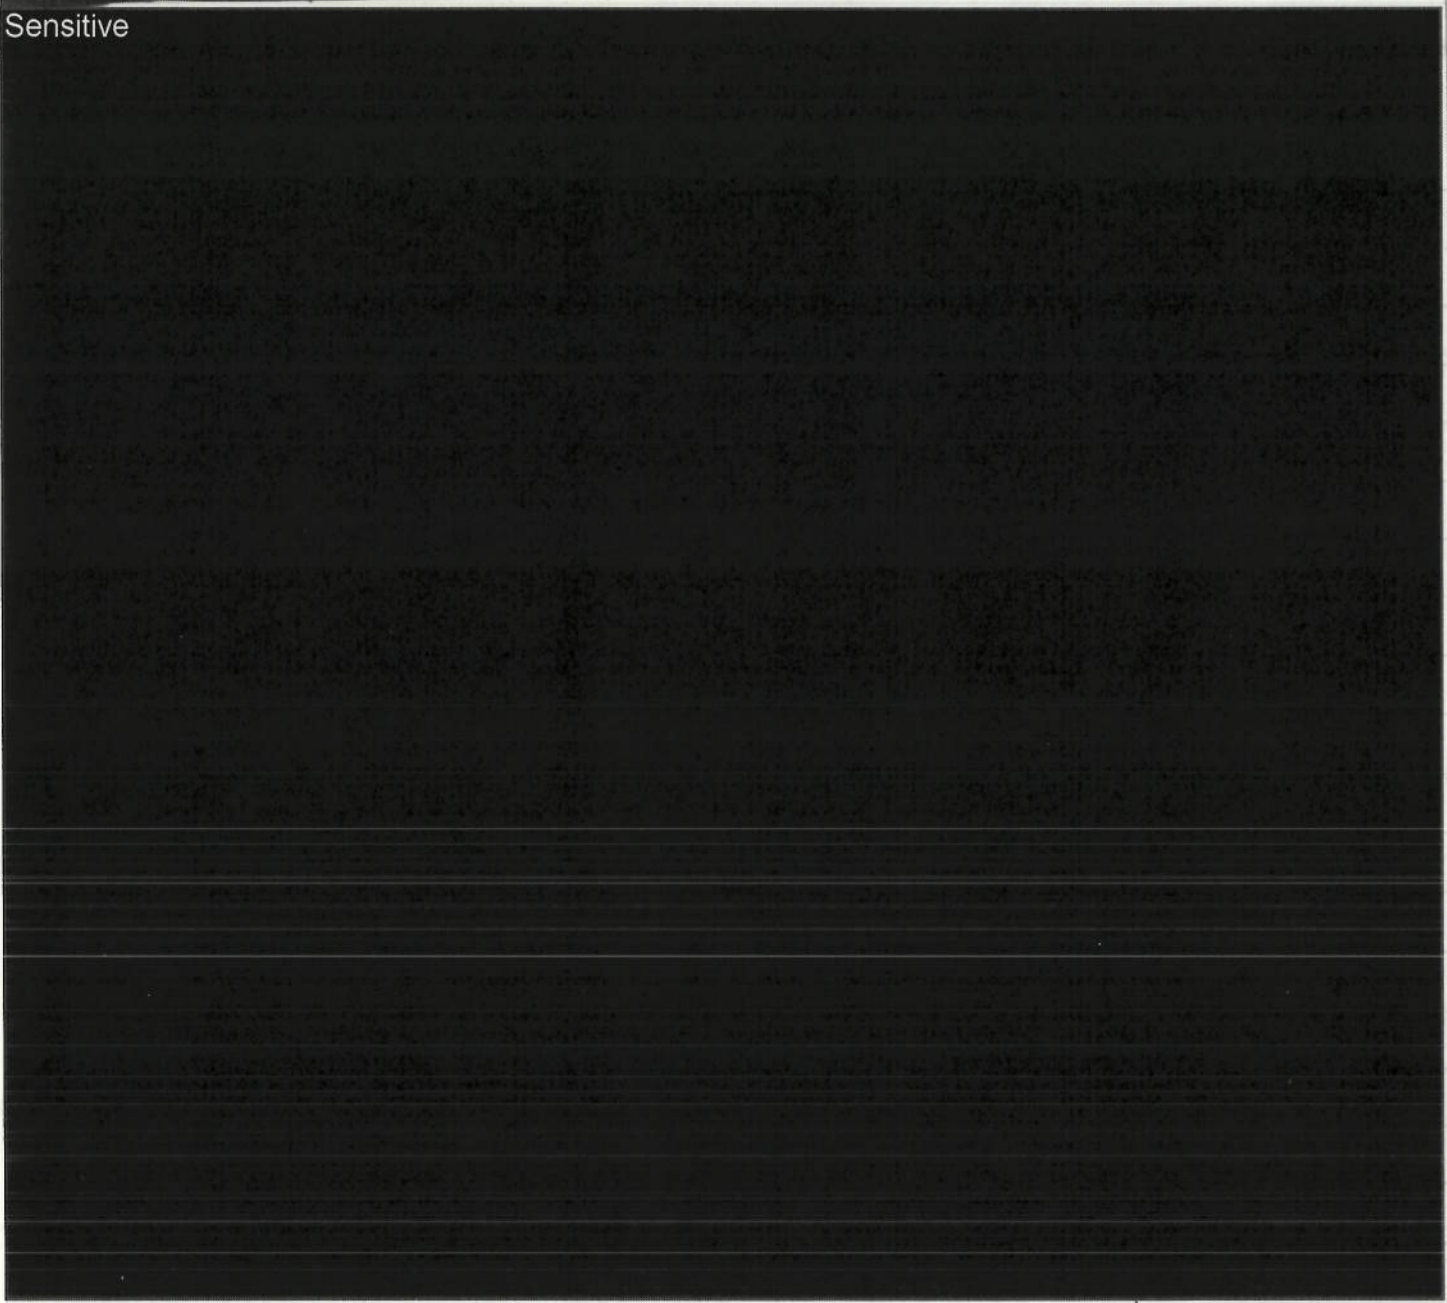

JUT  
Get the 2nd doses done. Multiple introductions.

Leicester the reverse has been reversed. So disappointing.

S-surely proportion 60% of cases

nerve

doctor

5.5m 2nd dose UK

5% adult 1st dose in UK

not 6 unpaired cases / fields

10% coming forward for 2nd dose

95% have come forward

keep momentum going

keep an eye on capacity

ple with 40 nervous about AZ

0 - 49 % - 84% being

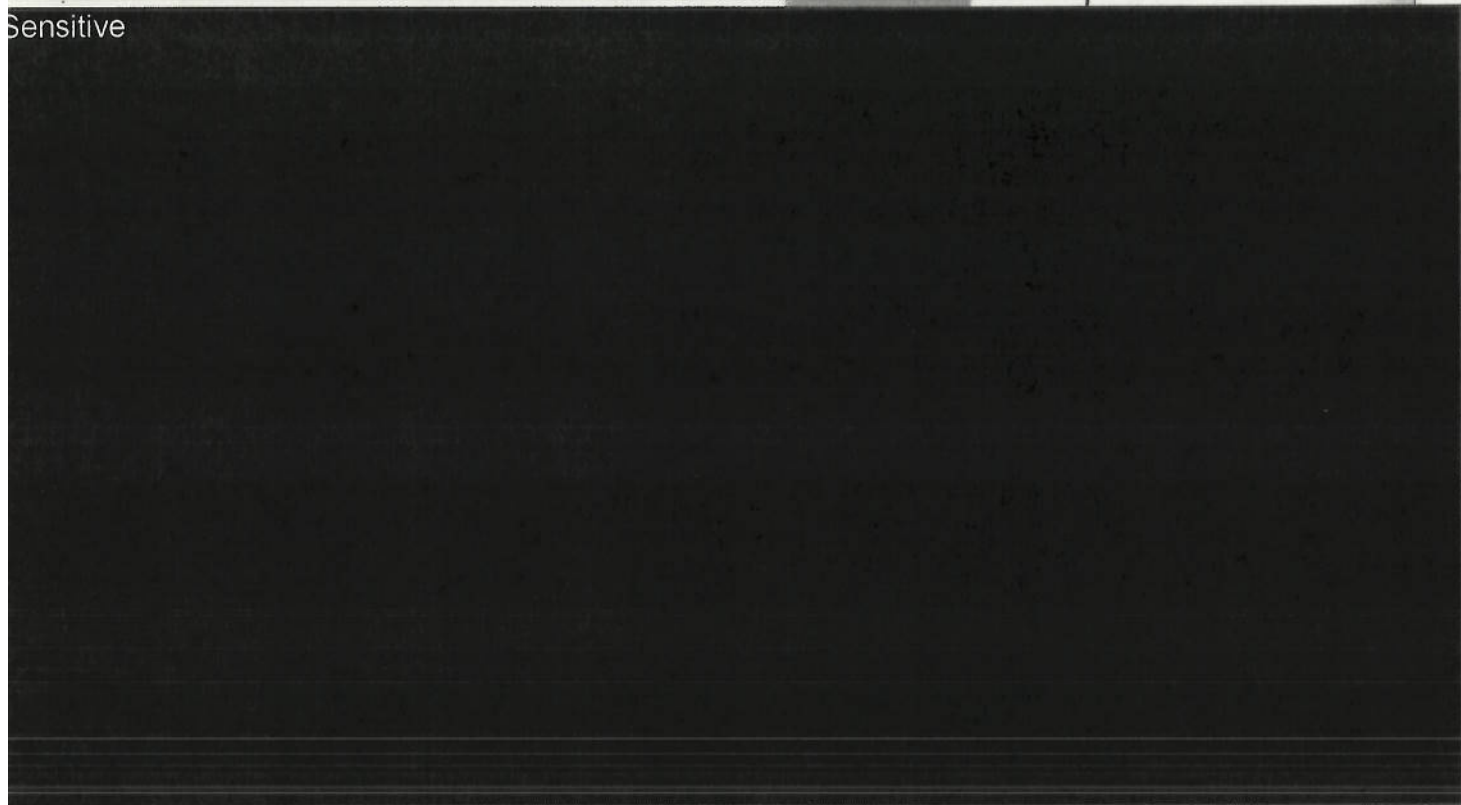

it

ruins - a bunch of students did away  
revenue -

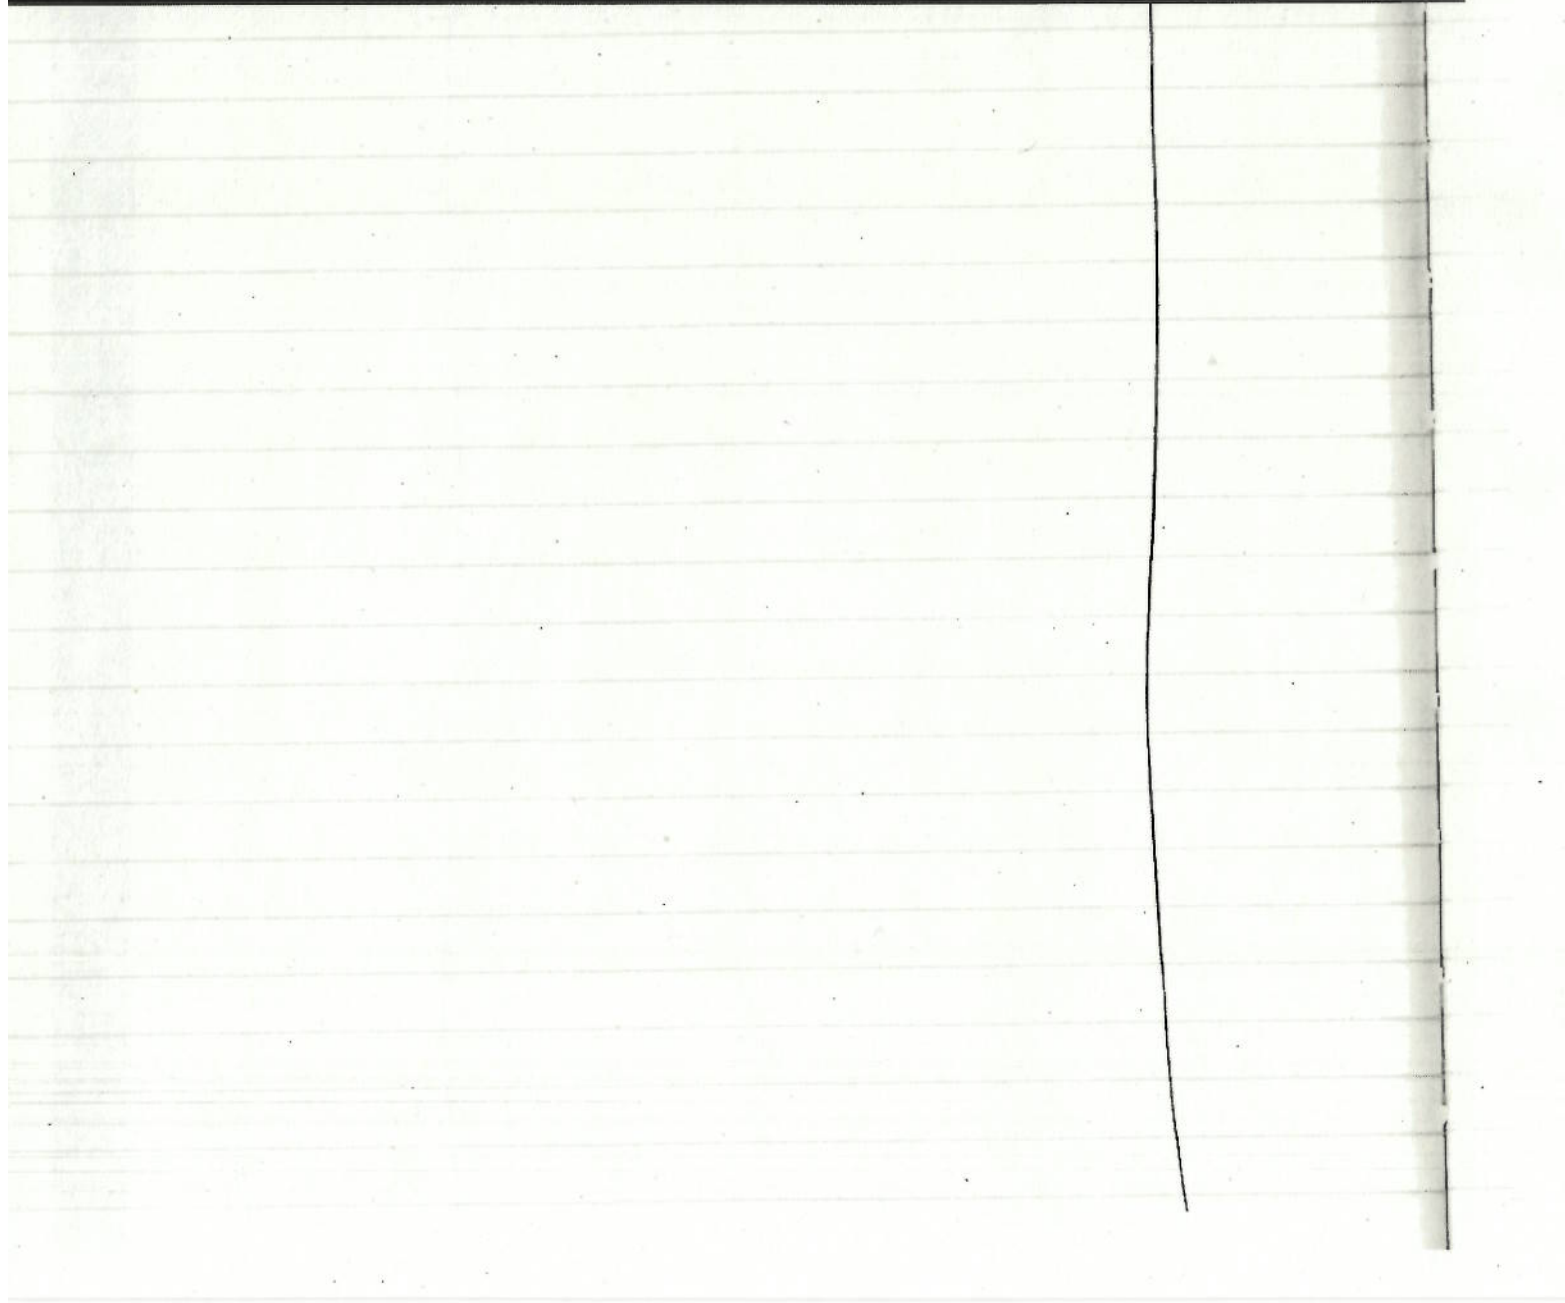

• ahead on case homes & prepare a Nite

WHS proposal to pay for

Mark.

① Vaccine Affordability. ② You need to make sure you have responses.

We should be able to process data @ MHA.

③ S. African variant vaccine. ④ Need to do a trial in 2022.

⑤ By end of month 900m doses. 36m to 1 year. 46m in 2022.

⑥ Uemo later start 2022. ⑦ Political pressure for development world.

⑧ Lipids are necessary - Coda. Much supply. Much for 351.

Coda Glycerol Avanti. 86 components for 19 countries. Some

supplies. Fikar. ⑧ Paper presented via the Coda. Much research  
Centre. There is no market. Nice. US the leader in life sciences.

“MY POWERS ARE  
ORDINARY. ONLY  
MY APPLICATION  
BRINGS ME SUCCESS?”

Isaac Newton
