Health & social care

Sag : I will live w. the £116m - It's huge.  
It will buy us a lot. But it won't get us on  
top of things. We have to make decisions. We need to be seen  
on the picture. It's not Bradley with the 11m.  
I know numbers. I don't think they are doing a great.

1. We can do Dilnot. Why elections down £90m? Where is  
it going to be?
2. A lot of work and for next couple of years.  
Have an announcement. PPE.
3. 50% of somebodies in missed appointments

Dental has been hard hit by Covid. Carian tests  
much cheaper to get tests tests down early.

Any laptop bodies can get more money  
Nurses & doctors - £500m of savings. But still need  
of more - NHS staff. Will have to make more savings.  
Get rid of CPD £2000, or better

No new jobs for public health  
care surveillance - genomic sequencing.  
only £400m for asymptomatic testing.  
won't be able to go as public testing.

Facilities - about 1-7. Depends on vacation rules  
don't go up.

No priority for any teleconferences, activities etc.

We need to develop a Pfyer off by 2/4/83.

Editor from - head of activities back piece

Pfyer - March.

By the efficient assumption
