MG & Protocol to deal w. Sefcovic

We have done a deal with safeguards NI?, safeguards NI points in UK, stop state aid readbacks, removes special derogation NI-GB, removed tariffs - so we should remove administrative clauses of the union in the.

EU presence will be up to 20 EU officials sitting at a desk near the people - opening a laptop & seeing that we are following the rules. They don't get a paper building.

Criteria for goods. At least 98% of goods are not subject to tariffs. It begins w. any good being assessed by at risk of tariffs.

Arbitration panel 1 on each side & 5 neutrals
It's shown in the CETA deal

A lot of work will get done
Levi's

A resolution of that whole backdrop question. As we take the administrative clauses out, we might include a vague reference. We won't take out the state aid clause but put some new language. We might come to put in a new clause?

A reference to the EU.

Aloke

- ① Signwell the only big nuclear project we cd hope to get the FID this month we are going to decide negotiations.
- ② EDF is perfectly possible to do Signwell w/out China
- ③ Chinese really interested in Bradwell
- ④ Suffolk MPs will be supportive
- ⑤ Chinese will put pressure out of Bradwell GOA nightmare
- ⑥ Not saying about what we do at Bradwell
- ⑦ WSL Shuang / Kepco → Wylfa

DOM

- ① Dependent on US - ~~but~~ have low-key engagement w. US / China

Th 9 Dec 2020

Dashboard

ONS shows pace of reduction - has slowed
Up to 5 Dec 0.88%. We have taken
positive = 488,000 people, down from 520,000
so the pace of fall is down.

We are now seeing an increase in London. We
are still seeing falls in NW/NE Yorkshire
Humber - but London now getting up there. On 20
people in London positive.

Yorg 213 School what is doing to London surge
How will this transmit to other age groups?

Hospital admissions 1400 - starting to hide up again
It's rising in London & E of England.
The pace of fall is slowing in NW
a bit of an uptick in admissions

Wales above where they were before lockdown!

Shona - done taking studies today.
Derbyshire authorities leading in the right
direction

Vaccination 5000y vaccinated + 22 sites across DAs
2 people had adverse reactions. MHRA says
people w. smg allergic reactions should not
receive for now

Fresh Fishes

We reduce the multilateral pelagics for the planning period because you can't just fix them by a deal w. the EU.

We have indicated that we want 5% increase year in the multilateral pelagics.

104 species — of which 5 are multilateral pelagics. ^{wholly, exclusive}
on the 99 we want 45% increase over 3 years. ^{working? 3}
^{kinds of working}

The multilateral pelagics should be managed from day 1 on an annual basis —

The cash value of the pelagics is very large. — $\frac{1}{3}$ of total value of the fish.

- ① We must be careful about the state of the state
- ② We must be NORMAL — annual negotiations — not a few weaknesses
- ③ 6-12 weeks important for Macroe.
- ④ French want extensive protection of fish in Channel (old waters)

Granville Bay agreement. 3-12 miles and Jersey, except Channel islands want to abrogate it

ROO / CARS

Nissan or Toyota can prepare some more or more arguments for UK/EU but they need until 2027 to be sure of meeting EU rules of origin rules.

We need to start at 65% but they are starting at 55%.

We say that if the EU reduce the ROO number to 50%
EU/UK control then we want a TRQ

I say 65% for 2021-23 & then 55% for next 3 years
Reduce to 60 if possible

Portfolio delegation

There are lots of firms but are UK based but managing EU money.

We want them to delete the headline saying they were the right to make a loss from having a presence in the EU

They might delete the headline but won't make the commitment to invest in people (as in office in France).

We might get some ~~enhanced~~ enhanced equivalence process.
They refuse to talk about equivalence in MFID or MFIR

Block II Rebalancing Mechanism

This is an alternative to security or de-fanging the equivalence clause. It allows either side to decide after 4 years but it creates a review of the way the Treaty is working & to decide whether to apply sanctions/tariffs or to get rid of elements of the LPPF. I don't like it because it just means endless negotiations.

Subsidy Issues

We have a problem which is that we haven't yet written our new subsidy law - but we

VdL: sometimes we were forced to tell EU that if you don't want to do that in the future - if you do that if you want to do something different there must be a tariff. The Carbon border adjustment mechanism means that you pay a Carbon border adjustment tax.

Stephanie Niso

You are creating a problem by not acting. We just have a 10% tariff that leads up to the standards. It means leading up to the competition conditions.

The tribunal has to assess the measure's proportionality

VdL or JRM:

- ① Subsidisation phase is important. We propose 10 years, you propose 3 years
- ② the 6-12 rule zone!
- ③ annual firm's registration - reasonable conditions under which you can deny access. That's registration conditions on which you can limit it
- ④ Quotas - 15-18% over 10 years
- ⑤ 70% of me 3 years

Michael B: we have to be able to explain to your companies have access to our markets & to explain how firms have had access

Nobody can get come back after greenfield or so
We cannot explain more clearly

We dispute the percentages. 65% → 45%

Emirate State

Hi John,

- I wanted to update you on my work -- about future relationship w. EU
- ~~not~~ dinner last night
- Goal to say that EU is still making a series of ~~more and more~~ unacceptable demands
- They have mysteriously withdrawn an equivalence clause -- so that it is decided to do some different
- My suspicion is by saying that we are losing so much money, health etc
- I can't sign a treaty by which we are bound for something we haven't done
- They are asking us to accept ~~the~~ 10 years -- not 5 -- a decade after the people voted to take back control of the nation
- They want to ^{EU leaders} sample state and at some
- They want to stop us from leaving up
- = In short ~~that~~ I don't believe that it is worth for Brit being and causing itself to change
- We will give a --
- We will make point that a large number has been achieved -- citizens etc
- We need to cut off work to spite the
- But the measure we must now get ready
- ~~that~~ Europe should get ready
- But it will be difficult but we will prosper naturally
- ~~or better~~ ~~if we speed up the process~~
- ~~rather than~~ We were brave enough to
- ~~enter into~~ vote in 2016
- I ~~wanted~~ ~~my~~ ~~EU~~ ~~was~~ we can't let him down

Twiss Rob Andrew

 S&W's performance in case
 to Africa more
 the party / 0

Eddie Llewellyn

The French have enormously improved their performance — between 90 more crossings to the beaches. They stopped 873 people last week — an enormous boost. They are motivated by succeeding. Macron says to don't want France to become a dumping ground for people returning from the UK. Darnier comes from his region. Migrant controls incredibly unpopular in France. Politically toxic to accept vast numbers of migrants from France. We need a really long term commitment from the French. We need a 5-10 year commitment from them. He needs to understand they talk to the UK is a soft touch — not rigorous enough in getting people to regularise their position.

PM

Sovereign Borders is cut to cut. The problem is Schengen open borders. Working w. Belgium, Netherlands. Displacement into lorries

PG card

DDM. (1) African countries won't want 3rd country nationals from Iran, Iraq.

- (2) A lot of countries will see it as a neo-colonial imposition
- (3) We need a clear strategy we can lawfully do this.
- (4) Where can we fund them?
- (5) People are going to ask for a hefty price. It's going to cost us an arm and a leg

Ready for plane E.U. conditions
for plane

Other programme of work
80% ready

frostie

They talk to us of welfare until they see something different
We have no mandate to accept an equivalence
mechanism.

They don't break off unless there is some
massive change of heart.

The gap in figures is large & they can't see a way
through.

The task is to be constructive but we should keep the
gap relatively wide.

If it fails, it puts GPs under pressure to meet
targets. Equivalence & figures are the key.

Further return seen as equal to what we have given up.

There must be an explicit case to come for
state of domestic opinion.

The commission is likely to lead to no deal.

~~The~~

They go to us at Jan. They don't want to get
involved. Are we trying to get a deal or
with the blame game

Down

point of leverage is now

What more can we do now?

Zeebrugge Rotterdam

Spanish currency go give the pressure.
It should be about public finance.

for
for
we can
now.

Richard. We should be clear among ourselves

about what this means. This is some consequences
which we need to be clear-eyed. Need to be
completely convinced & persuaded that we did
enough. On economy - will mean change. I think it's
by less good for our country - free ports - but you
will see the negative much more quickly than
the benefits of free trade deals. We can't
just hang cash at everyone. My wanted to go
away - You have delivered it. My country
be pleased. There are lots of people who are
not prepared. Here is going to be disruption.
Competence is really going to rely on us for. We will
be blamed for practical challenges. Do we
have the sovereignty? Yes. But it's not going
to work for us - we can get out when we want?
You have been difficult but gives us the space to be
more robust.... 40 year trading relationship -
it's a process. Give us the ability to deliver on
your agenda. It takes to the language - or I think
it's broadly OK. Port skills - working to an
advantage.

Michael

...ael 9.

- ① Politics - the media should look at the public interest / Covid
- ② They will blame us for Brexit chaos
- ③ A lot of people's lives should be devoted to the dead
- ④ If we can get more - we should be as hard as we can
- ⑤ We can put the pressure on them

→ we will be remembered for this

→

- chaos
→ opportunities

Saturday 3pm 12 Dec.

Twice : discussed that informally w. Kiro.

Twice in 2 successive years? Three times?

They have presented a counter-idea

The working groups are working away

Can - they have moved a little but not enough

Portsmouth delegation - they won't give us the Canada commitment ✓

3:45 pm

New variant of the virus

951 cases

of whom 6 have died

More transmissible

No evidence that it is more aggressive / fatal

They don't know of the vaccine works.

They can't give assurances or efficacy.

It's the Mark Kent,

Chris Whitty

Not clear how important but it's a new variant.

Things are moving fast.

It could be more virulent?

Early antibody to evade vaccine?

No strong evidence of re-infection.

Speed of increase in London / Kent / Essex

School testing - you don't want them for home

It's rising everywhere.

Forsure 10 am July 14th Dec 2020

- 1) Hold like a fish
- 2) Equivalence not done
- 3) We keep saying the more we have made a equivalence must be reciprocated or firmers. By say it's about access to their markets
- 4) To be extent there is a last deadline it's about to end of this week
- 5) Don't mess around in fish --
- 6) We can't solve this mad fishing
- 7) What market do we subsidy system... a one market says between decision to put a subsidy saying for it at

Curb

- Ursula - were going to work there & try to red dead
- Can't do that
- Still a big way apart (LD, Labour)
- But the UK will continue to work
- We work with us
- get ready for WTO Korea, Australia
- ~~Commission decision - that's needed~~
- This has become easier because of XO
- → also because EU has moved
- Asian
- Landings
- Substantial risks
- We bash on - ~~the~~ which
- can I record that changes much more pressure on the market & open a few firms ~~from~~ fields of Australia & have a great fishy.

Steve Lewis

We won't see the results in
hospitals yet - we are seeing
fewer patients going into ICU
London part most central part of the
country

general beds \approx 2000 in hospital
40% of general beds in

April.

But London didn't see a general drop - the
in numbers. Numbers continue to rise + we are
going into an busiest period. We can see
no respite & other illnesses coming up.

We are continuing w. elective work

the local and sub-regional areas & London
won't be able to do that if London has no space.

Hospital rates mirror infection rates... we will see a
dramatic of admissions... all hospitals have seen an
increase in numbers. Barking, Havering, Redbridge
have seen the biggest pressure. A lot of pressure and
Medway. Non prod, Canterbury \rightarrow a bit better off
now. Bexhill, Folkestone,

Hertfordshire stable but still high numbers.

elective work? We are putting as much as possible into
independent sector

Chris W. It is going up again rapidly.

It is a concern to be even more cautious. No evidence it
can't be picked up by testing... Not currently testing it's a
big probability. Keep a close eye on it. No way of
unhiding

PSK still open
portfolio delegation - commitment to financial services dialogue

By want a non-discussion on virus - trade for VSKs

Part 1

New variant

emerged in September

Less going up part in Canada (SE)

more of the SE - now 60% of cases in Canada

Right part of variant, number of cases

number of cases UNUSUAL

in areas likely to increase binding & transmissibility.

This virus has a substantial decrease in transmissibility?

Substantial decrease in transmissibility

No evidence that it alters disease itself

Does it cause a difference to immune system - so that vaccine doesn't work

Some theoretical evidence that it does affect immune response
cases increasing rapidly

Variant being seen

Substantial increase in transmissibility

Health

Why didn't that respond to 2nd national lockdown

Significant pressure on NHS

We now know there is a new variant

Tier 3 was calibrated to get rid of virus

clear evidence of change

350k people in England have been vaccinated

clear test strategy to help with control

Schools are going to have
regional geography

WEC could be broader

Northfolk - new cases variant

within a week / 2 weeks severely impacts it

Simon H : When it comes to financial.
Make independent record

Jacob : Vote on matters of national
significance

Tim : ① How long will it be put in place for?
② reluctance of police to get involved.

Robert : Containment of Xmas bubble

Grant : International travel -
PCR tests

Michael : DAs Wales / NI / Tier 4 +
solidarity
Wales has moved to 2 levels of
directors

George Eustice : Why isn't going to land / SE?
reasonable speculation that it
will start to take off a times

Italy cancelled Xmas -

COVID. Virus mutation is likely to be a very slow process. It means a p.

Some or later along in Egypt

We will not probably get it

But expects workers who go to work by bus

I want an app. We can test there

And we can test dialysis. We have a preliminary application

This can be put in place for a test or

you can test it in the field

But app will be a place

If we can do it by funas it's doable.

I believe it is possible. I advantage of it to come to an app.

We are getting close to starting down below that or small boats in the

The most important part is scientific advice

Monday

Border disruption - Dec 21 2020

2.30

Friends suggested traffic goes from UK → France.
Border arrangements in place → flows have dropped by 50%.
We would normally expect 4-5000 trucks going each way.
3000 via tunnel.

Manston will be available both for vehicles & for testing.
OHSU have looked at medical supplies & vaccines.
We have vaccines up to end of the year.

No issues on medicines.

- Food supply.
- (1) Bulk meat routes just one point. → 7-10 days
 - (2) broccoli/citrus supply repeat w/ch 1 or 2 days
 - (3) We import a lot of lemons
 - (4) fish exports - request of home for products for going out
 - (5) tanks of water - delayed distribution for fish.

Hampshire - Portsmouth not reporting problems.
Kent is, feeling the impacts of covid

Criticism of Kent - Kent's county council have been criticised by local business for severe restrictions

172 on M20 in queue stuck
was 500 -

Europe lane -

Boat - motorway can run a lot of lorries

Manston - additional capacity

Djebbari

Jan - Bosphorus

Has tweeted a solid health
protocol & Paris can resume.

Try to have a European protocol to safety tourism
France has banned the tourists

No more strictly medicine than a long drive.

Try very soon for the
PCR or lamp?

No other countries have allowed France
Isn't just a problem in Paris ...

Try with work out on side

Grant

- ① Mainly European COMES. This is about 10-20% - accounts for 20% ... 80% is unaccomplished
- ② Discussing with a European. Send me rules please here. We happen to have about 10 and
- ③ French COMES for a school
- ④ Central Paris COMES & PCR COMES.
- ⑤ What's the going rate we will have a proposal -
Mauritius - very people -
From Shady to Brede -
- ⑥ Will ~~strong~~ protest disruption
- ⑦ Is vs. current about the bridge

George Eusebio

- ① 10% of good supply comes from
shorts - more dependent on foreign
completes.
- ② Much of the food is due to coming.
What's still to be tested before 27th
- ③ Samples for test for testing & especially
on food. Need to be sure about
dependencies to UK.
- ④ particulars: supply & purchase
actions - people talk
- ⑤ a lot of comments have been stood up
- ⑥ particulars: we will be calling

Matt - 10 day supply continue

② High degree of confidence. No real
needs alternative supply

③ We have high quantities
so can make supply
for future

Grants
for
completes
testing
samples for food
quite a critical
challenge

22 Dec 2020

PCR for Europe by the
French not lateral flow for
lorry drivers. Push grant on
motorists but they can
do - for the French.

ICV & trace can stop lateral flow
at Manchester & Dover for time of
Jillies / could task force

Grant - covered after long note to
night 1500 Loris at
Manchester not M20.

Let system now trials an operating level
not going to be revised

French want a joint statement by head of
policy - a positive test will need a
PCR.

Some testing of European drivers -

Pushed down to see if the level could
new year. A lot of outstanding issues

French want to lead. What happens if the
test positive, we have to stop them off to
avoid -

Where we will test for untraced

thinking we would do
 testing on long drivers. While others could
 be in the 4. Needs to be
 increased. Say / Nervy going
 lockdown now

23 000 cars

18 000

285 dealers

→

ratio of dealers to
 new variants -

Italy, Switzerland, Denmark, Australia
 Sweden have close borders to Denmark

Nervy number - Monday

70% → why didn't it say?

New variant shows up more under 44s
