plan  
#2  
vaccine  
schools  
business

1) People can leave CASES

2) BUT uplink in deaths

3) Case leave staff in short supply

4) So some have been asked to work

EVEN THOUGH THEY ARE COVID POSITIVE!  
as a result

5) Dept of Health has stopped leaving staff movements

6) How do you vaccinate to make sure you are positive

Challenges

- infection rate coming up

- infection rate coming down

- deaths will come down but have to be a bit wave

- disrupted schools / business / sports ... we don't have a plan for it / don't have a case

- shortages of staff ... began with big challenges.

- and staff off sick is £120m / day .. Not all the important staff to go back to work

- we don't want people working / don't have a plan.

- we think we stopped 90% of movement between case homes

- staff returning to work when to take vaccine ...

- vaccine hesitancy ...

Steffen - ONS flat - it remains very high risk

So in SO in England.

We will get better data tomorrow. Starting a plan for reduction

JRC 2nd of Jan

Result is flat ...

infection rates still rising but not too high

R below 1,

Finland flat at low.

Tig UC 3:30 pm Thurs 4 Feb 2021

UC has been a huge success. It is a pro-work benefit.

The more you earn, you taper back away.

We have capped it in order of tax.

Further is best paid to people not to work

£50 bn or further. If plan for jobs, fewer people will be on benefits anyway.

If we start it for next year, you get better control.

If you do it for 6 months, it's a hybrid system

There's a risk that you have to pay legacy benefits

Because you will be treating legacy w. one-off payment

We don't want to be taking money away as unemployment rises

The way to make this happen is to do a 1-clause

money bill, we can be in that great spot, & we

can do whatever you want later in the year

People will come off further up on benefits.

What

1) No limit to later years after 2 years

2) argument about powers limit shifted

3) or it was a temporary benefit?

4) our arguments should be about skills & work

5) skills, National Living wage

Sara was an amazing woman - she gave her life  
to the NHS. Prepared to go to the ends

I had sepsis or pneumonia  
She came home from work on the Friday but her  
wounds deteriorated.

We called 111 & 119

Took Ryan & Freya  
I didn't say anything to Freya  
We had a call at 0040

Covid affected right lung  
Freya

I became a carer for her in control of her  
grandchildren - and went back to the

72 has severe hypochromic anaemia

Lauri Kivik

## Public companies

to discuss this more in standard disclosure  
we want to make a sustainable disclosure  
these rules are from all companies  
they companies go private to avoid going to  
the go  
Public companies should disclose assets  
GDP 26 needs to move forward.  
We are going to have more public companies very

- to make private capital
- EV
  - hydrogen
  - gas
  - steel
  - CCUS
  - wind
  - vehicles
  - cycling, walking
  - wind
  - buildings.

# Cladding Feb 8 2021

R. Murdie.

- ① New guidance for HCS within but 1 = parts of the surface area has unsafe cladding that you don't need to remember 20.
- ② For all the 169,000 dwellings an inspector will need to go to each building & do an assessment
- ③ Unsafe hotels - Marriott at Brentford impact -
- ④ Many glass buildings are not fire safe
- ⑤ The Jan 2020 advice note was too
- ⑥ Lakeland fire - cladding
- ⑦ We don't know the scale of the problem
- ⑧ 169,000 leaseholders will have to wait for an answer to come.
- ⑨ 900,000 dwellings of 11-18m were cladding of more than 1/4 of surface area
- ⑩ Of the 169,000 need a real look
- ⑪ Advice notes after Grenfell
- ⑫ ACOY fire doors
- ⑬ Sector-led guidance

14 m2 dose

## Roadmap Sun 4/26

① completed between 5 & 12h parents  
in hospital

② May last year we may allowed some measure

③ ~~the~~ much steeper schedule in March 8...?

④ Antibodies are protected by last vaccine

⑤ children — 20% of pop — won't get it

⑥ Over half of the pop. will be given protection

⑦ efficacy, it prevents severe disease 70%. 1st dose, 88%. 2nd dose
