British national Fiscal Review

BBC interviews people at home

preparing for budgets -  
voluntary pension fund cuts.  
1.24 with just fuel unaffordable  
BBC 21 out of 30 budgeting accounts

Budget

Dashboard

Steffen. What's happen in schools  
School full a central estimate  
1 in 15 people = 3.5m

Warden coming down.  
presence down in NW

all people with 50 have seen a bird

cars full of people but less weight on track  
overall down 43%  
+ older people down

0-4, 5-9

rapid rise in mortality 10-11 yrs 6  
2 to 10

80% hospitalizations  
relatively flat

ICU numbers down  
worse when ed of Sept Code

stuff abounds every day

90% of everybody are 60  
very high levels of awareness  
among

7-5 in people are 18

Need to emphasize the importance of research

All - cause mortality  
we are here - life plateau

Old children are not possible

ONS - children just ~~dead~~ cause  
often under care

Harpal Kumar

Cancer Strategy for NHTS - Simon Stevens.

1) Prevention & early diagnosis is the best - 60k deaths per year. We detect too late. More emphasis on prevention & early

2) We do worse than other countries. We don't live to 75%. detected at early stage. We are at 54% still. Much more investment in diagnosis. Plus we need to make sure treatment starts earlier.

3) BUT there are new technologies. grail has developed blood-based technologies. Meaningful volume by 2024. We can predict which organ has the cancer from the blood test.

4) We are where we need to be in data. We need to go much further & faster.

5) drug treatments much earlier. Pancreatic cancer. You do venture chemo at advanced stage. We can get up to 50%. We can improve outcomes & costs, but we need to move faster.

Mukherjee 1) primary prevention 2) secondary prevention 3) treatment  
4) post-treatment prevention

prevention from the primary / secondary prevention.

primary prevention - most important. Age.

Rates of obesity - We don't understand why obesity is a major driver.

smoking. Going up in some nations

Covid has allowed us to collect data for  
people at risk. Began very low level  
get a human population virus vaccine  
2. ~~Research~~

Early prevention. Colonoscopy. Mammography for  
cervix. There has not been a large  
randomised study of using technologies such as  
GRAIL

We can use the blood to find and detect  
cancer at early stages

the size randomised trial

double-blinded study but then we move  
forward.

Some progress in immunotherapy. Drugs that  
activate T cells.

2 or 3 are successful.

sometimes successful - melanoma

The UK collects data well. We announce it &  
use it with launch a national data campaign.

Devin Housh can deconvolute the data

Obesity — Behavioural advice to reduce the  
risk - smoking is not the most  
important. Great many are or spend so much  
money on immunotherapy & so little gain

behavioural studies. Use the data in a way that  
countries can't.

Hypertension : we have very good HPV vaccine  
rates. we have 65 obesity prob. kept  
smoking still bigger. Putting pressure on the  
size biggest gain

John Bell. UK was so far  
ahead on data but has  
been overtaken by US.

developed a powerful ability to  
work between academic / industry

NHS provides a unique env for  
drug dev shifts

Med shift from focus to prevention &  
early intervention

NHS not sustainable in current form

We don't make data accessible

NHS has world's greatest data potential  
Anxious to do's agree w. industry

US-UK Report on Cancer Summit

1) too few oncology doctors

2) fail to learn exp

3) racial bias

With Capabilities Assessment

Big change in jobs

No live animals have been  
Supported since the start  
live systems have stopped

Our code, life cycle

Push

White cap gets announced in Feb - April  
→ comes out before October

→ the inflation will catch up.

→ we stopping in to look like we care

It goes up again

£1970 increase gas

£2100 in October

£700 increase

Why and it come down end April  
VAT is £93

devolution. Heads seeking

Permanent vs temporary

Funding

No good plan. Most talks before sending typed.  
Donor doing

Green levies - pay for contracts to difference  
they company obligations - cut's fuel costs  
we would have to start it by anyway

we believe in natural gas as a transition fuel

oil / gas industry

Coal

Council tax - rebate on energy costs

Council tax rise course in 6 years  
with capital budget.

Duncan Smallbrook  
sounds  
as if it's  
Stappard

Cull Cewit

Reflection 15%  
stuff is really expensive

cut the cost of living by cutting the cost  
of goods

Business putting up prices by 9-10%

oil prices up here  
electric cost - can't ignore

tech, health, finance

cutting the backlogs

prices of business better

business puts some prices up

high - waffling

Jacobson

29 Jan 2022

big increase in young age groups  
age 2 to year 6 - maybe healthy.  
young age groups - rising across most of country

the 60s going down.

But will the young groups deteriorate again?

Parents' groups have picked up.

(4) the patients in hospital.  
admissions falling  
plenty out again most of the time  
community falling steadily

(1) numbers continuing to fall

7.2m people eligible for booster - but  
have not yet had it

You are 10x more likely to die as an elderly  
person if you are unvaccinated.

Even less normal deaths. Fewer people dying in  
hospitals & care homes  
More people dying at home

Sussex Hospitals - people in different parts of the country  
in Denmark / India.

So far - few signs of severe parts of the  
country. No signal yet for increased severity.

No sign of increased hospitalisation -  
but Indian circulation. Vaccine effectiveness.

No increased severity signal

BAG & BAI

absentee rate continues to improve  
compulsory vaccination a goal & ready

Consent w. override.  
Consent being sought as is regularly.

Agenda

Vaccines, VAT -

Madhu: BBC pricing model. Sustainability  
of BBC. Significant rise in licence fee. People  
don't watch BBC on TV. A big monster.  
How do we fix that

Madhu: great BBC product on education

Ann Marie: strong brand on trust. Soft power

Dan: 30% of annual conviction for non-payment of  
licence fee

Steve: must be a perceived right with some symbol. Prob.  
BBC can't maintain current model.  
Needs to redouble efforts on impartiality

George: danger is once it tips over into by accident to  
BBC. Net's come down to it

Michael G: Politics.

CDL: too much quantity. Need more transparency

Dan: rule.

Kir: how to maintain quality

Tiz: licence fee
