Carbon capture & storage
John Longfield
Chief Scientist at National Grid

They put the scheme to an auction to extract the CO₂
It doubles capital cost
makes it 10% less efficient

Natural gas - less efficient

ammonia process - pure CO₂

Once you've built it it lasts for 40 years
When the world it not using your tech - too

Cement (steel /) - Green

Supercritical form - you cool the liquid &
store it underground.

Put it in a deep aquifer - some can be
integrated

& you can get oil out faster

US has got CO₂ wells

CCS looks like plumbing - multiple applications
large global market

Joined the common network

Contract for difference

Get the carbon into the paper

0.04 — You need to put in
sugar

You can use natural gas to
produce hydrogen —

and is clean + 20% to cost 1 lb
gas

Style Market

Moh

We didn't have style market
you would see gap full - we will
guarantee maintenance for all new
businesses

Power transferred to the devolved
units for exemptions -

We will need to have prior approval
for business & jobs

3rd party jobs. We can't give
approval in consultations

It's trade issue as the wedge alone
has practical consequences for different
parts of the UK.

At the industry level, faced different
market needs. It's not one size fits all

There's a wedge - we need to look at
the power of legislation → how can we
have guidelines. We need a robust
marketing plan. Mike Russell said only 3
the frameworks in place

Simon asked directly powers in the bill
we didn't give concerns to Welsh gov -
makes no sense to give concerns - only
did labour supply amendment agenda in
Wales.

Brandon ~~Simon~~ asked directly powers
in the bill. A cap? No

More positive supply for NI than
elsewhere - our interpretation of the
protocol. Here

Simon: Welsh gov politically aligned
with UK gov trying to do

(Liz) - XS
- Nippon

Lib
Part
Don

up for independence it's Wales growing -
it goes wrong in Scotland it goes wrong in
Wales. They are trying to use every trick in
the book - Take stakeholders with us.
Some labour MPs in Wales uncomfortable

George Eustice

they can already diverge

Richard Gove - Scottish farms & farms
can be subsidised differently
- Scottish gov can subsidise its farmers in
a way that is inappropriate to English beef farmers

powers go back to Scotland - they do
they don't go back to Scotland - they go back to the
UK. Trade - you can't take it out of the
discussion.

COVID recovers - helps them have access to
English markets

won't let ^{steam} air out of the kettle

Irish spending

Fi : the Scots will always shade us over the
= head

creation - investment or supply for business

Chris Whitty

①
Every business that opens is
an additional risk to
every other business -
We have a lot of
countermeasures. But risk of
above 1 increases

② 2 (6) risk points - Schools
Sept 1
It will increase the virus
but we don't know how
much.

③ Winter will benefit the
virus. It does tend to
all us previous viruses

If you are close to two
winter but periods will
come your way.

From early spring onwards
but ~~winter~~ virus has less
momentum.

I don't think we will
get to that winter
W. cycle like that means

Notable to open a
winter

Older people are less more
risk aware than young people

Most people are going to
be left for.

If certain rules are going to
be left behind, let's not shut
down.

People are very cautious.

Grant
What we are looking at here
we will have an app
understand what's been
demonstrated.

Social distancing & non-
face coverings.

What's going to be the virus
looking like? What's the
measurable? How resistant will
be NHTS to? We don't know
how badly it will be affected?
It will be.

Chains of communication &
behaviour

Others

Anti-landscapes -
a lot of women in the
workforce.

Child care -

It's hard for anybody
the vaccine?

What more can we do?

Down

→ we have
made unmeasurable
progress...
We will be able to
able to proceed.

Face Masks - either it's right or wrong
People vs side of politics

Fighting with Labor makes them switch off

Coming for people to work better

People has more responsibility -
more for a change. as cost driven, customers

Conid, Ntts, economy, Bors
con' of things - a challenge facing them

Overall perception that Labor will do better

By intended job done who not are Labor
will do a worse job

We need to drive on satisfaction above 46%.

They aren't seen enough in the domestic
media. Cost of living Ntts, schools, etc
Helps the country recover from Covid

reducing the cost of living

improving the Ntts - strong associated w. Labour
economy Covid to Ntts

Managing the economy, debt, Brexit

Analysing - step by step relationships w. EU

We should consider it a wake up call

Labour have lost to the Lib Dems

SNP strategy in Scotland

They are dissatisfied but not wanting to get

We need to demonstrate we can deliver

A lot of don't knows for the best PM position

Thatcher - doesn't want to be traditional

Shares my values, drivers

Shows up for what he believes in
than his - private vision

More

80% of people have heard of people's
seats we won - much lower awareness

~~First to give Labour~~

Even in the own seats our MPs have
not unfavourable ratings

In 2017 Labour held on to seats on basis
of seats

By what means & how - political campaign
tips go to get worse before to get better

(demonstrate progress) - Link all issues to
Economic Management

Acts decisively

Communicate ambition for future of the country

People really are sick of politics

This is going to get worse before it gets better

4m unemployed

~~at~~ Shamer - - not worth economy
- doesn't interest labour voters
- not being constructive
