CDS is going to be happy with £156.

Supports every trade

16 Nov 2020

Covid strategy

1) Strategy to be published on 23 - before
spending review

2) More confident on 26th - we will be much
more confident

3) Laying the regulations on the 30th

4) relax social contact rules for the summer period
by allowing any household to form a bubble of 2

5) Better off doing it at household level

6) Survey says $\frac{1}{2}$ do it up to 2 households

7) If you all move households for a
shorter time

8) You can't spread it round.

9) Mistake?

10) Universities going back

11) January five weeks - or work up future
conditions - Tier 4

12) Return school holidays

13) Tier 1 didn't rise as fast as we. Tier 2
maybe had an impact when it came to 1. Tier 3
had more of an impact but we still felt that people
where we had to take measures across the
country.

14) For those who didn't see the impact where prevalence is low
low prevalence area

15) do we go into a gentle decline? or a big drop?

16) Tier 2 table service only - unclear

17) we would go to Tier 3 hospitals inside --
upside up Tier 2 -

18) we close all hospitals

- spread
→ tier 4

→ low prevalence

⇒ threats

8 days - then back to film 2

TERS

we could extend hours to 11

- 1) 50% capacity in 1000 person
- 1) You can't go & watch a football match
- 1) outdoor space

the service will have to come into its own
much more contact tracing

- 1) SATGE to rooms ... for 5 days will be enough.
- 1) we can't do it for
- 1) 5 days of testing = 14 days of isolation
- 1) You can do it for 7 days...
- 1) we can do 1300 people

Many More

UK - wide responsibility decided for the vaccine

UK

Garvin - not a large enough
plan in y construction -
Dargatzis - Cristoforo
We need a clear plan & objective

COP - Mark Carney

Appropriate finance - what a great job he's doing
Mainly go to the private sector -
get to net zero
If you want to do offsets, fine

Race to zero → getting to net zero
as credible pathway

- 1) Pivotal year 2021. But would do that to sustainability
- 2) We can define how financial system works
- 3) Would have a big multiplier effect for UK & Scotland
- 4) We see a way to make money
- 5) We need to double investment for next 3 decades
- 6) Markets can now see who can get to net zero
- 7) Cost of capital for wind or solar is $\frac{1}{4}$ of oil company cost of capital
- 8) \$125 billion towards EU 6 grade agenda
- 9) I should get paid for ending carbon oil & gas
- 10) Bill Winters of Standard Chartered

Green financing . Carney

- I plant a post & set the value of total carbon reduction
- Then carbon footprint goes down
- He has to pull a carbon out of the air
- We need to pull carbon out of the air
- It's a big market that probably goes to be centred in London
- Most of these investments will go to 3rd world places
- We can build that market
- Then with innovation come carbon trees
- The private sector demands that market
- Then it's a company

Defence

CDS + Wallace say at £156bn to have to cut army significantly & get rid of the armour
If you cut increase it to £165bn we'd give the speed
As quickly you reduce the size of the armed forces
You will have 6000 redundancies in Covid period

Sensitive

Green financing . Carney

- 1) I plant a forest & sell the value of that carbon sequestration
- 2) Then carbon footprint goes down
- 3) He has to pull a carbon out of the air
- 4) We need to pull carbon out of the air
- 5) It's a big market that's probably going to be centred in London
- 6) Most of these investments will go to 3rd world places
- 7) We can build that market
- 8) Then with innovation come carbon trees
- 9) The private sector demands that market
- 10) This is a campaign

Defence

CDS + Wallace say at £15bn to have to cut army significantly & get rid of the armour

If you cut increase it to £16.5bn we'd give the spend

How quickly you reduce the size of the armed forces
You will have 6000 redundancies in Covid period

sds of opportunities
dispute in WTO
EU input with

WTO doesn't like Airbus does want paid back the loan
US says \$11bn ones

Brexit / flybox outside Bristol

in Hannover Airbus

Julian Zahradt has been knighted

£3.5bn → UKFF has been helpful
error companies asking for export financing
insurance of employer taxes, HMG has been there for us in
the partnership.

Guillaume Faury

More than $\frac{1}{2}$ of the planes in the
Airbus without UK will be a bus!

US, UK, Cyprus, Defence, helicopter, space
we are at a crucial moment & we have many
transformations to make -
we need the degradation of aviation
infrastructure /

On small airports you have a high premium machine
we don't have to be careful -

Zero E - Airbus want to leapfrog

My of the future - flying with - going to hydrogen
in quantities of decarbonised hydrogen
The jet jet programme helps

2 x D - - system
used 10s of billions of £s

PACE → we were a branch office - one web
this gets all on support -
manufacturing -
on on drive

lot of satellites - a lot of investment still needed
telecom branch of space x

use technology used scale & size
(Europe / China
need to keep moving, keep working together

lot of investment but need to go into regular
stream - we need rules to overcome -
are impacted by world & by few rules to
long-term position -

lot of progress, discovery
→, defence, defence & space

there is a big picture - as soon as we are behind to
what means to work together
decarbonised flight

Fuels - very energy intensive. If you use decarbonised
energy, you can do it. Hydrogen

new hydrogen is a turbine

hydrogen fuel cells

but w. short distances

1000 - 2000 nautical miles

We will start decarbonising with biofuels &
then hydrogen for bigger planes

COVID-0

for TIER 4 - CDL might push to be even higher

Why aren't we doing more on renewables? CDL to chair covid-0 on renewables -

start by having stopped Paul...

Rob Harrison : hospitals are not starting to rise again unless they're firing
hospitals are a lot higher. But when we opened up in July

USA - incentives

Bob Harrison - 6 date of measure slowing. 1.1.80 are
dated. (2) date rising in Over 60s (3) date rising in SAI-M
children.

mobility data ^{has} not as much as a survey
give to a lockdown R before 0.8 or 0.9
legislative work to lower but prevalence high
146 hospitals on 4th July

ier 1 } not enough to begin control
ier 2 }
ier 3 }

evms firs want enough

an, feb 2 most to go into NHS

~~No~~ hospital tier 3

you need substantial need for tier 2
out of tier 1 & 2.

us - give J. DHS.

3 hospital tier 2

1) More of security, hygiene (2) More vulnerable to get as quickly
infectious (4) Review at 28 days

inside (1) N-S divide (2) down of all personal care (3) people in
hospital - 22-28.

(1) We must have proper evidence. They don't want to see an upsurge in infection
Rise level 3 doesn't get evidence in R number (3) 24-27 dec (4) No 3
all bubble, bars, restaurants (5) How we get people to test? Incentives

(1) Incentive for test (2) We must have test tiers (3) probably into Tier 3
a seg tier can see into tier 2 (4) 14 day review? (5) Xmas - need to get
pre
