SUPPLY CHAINS

Pushes out Xmas

Pig butchers : Some will have been cutting a pound

We can't eradicate that.

Time you decide to implement -
media have not noticed

Daffodils 40,000 (SAWs)

Test capacity doubled

Test capacity

We have a lag. People applying for licenses
it's better to be before

over 50,000 waiting. People staying back &
looking about what is important.

Group : Reliant, hospitals, leisure, tourism.
they don't have savings or infrastructure

Only 200,000 - 300,000 who have left the
country. Food sectors - returning people.

Other states people who don't come back.

Capex/Opex - works -

Take away Felixstowe & Southampton
Bus service and a taxi. Crane capacity.

Europe & Home Rail

Felixstowe , Put more on rail . (Rail)

Having a more integrated plan - for a paper
with a view. Match that to capacity
needs 2030 - 2050

Having a plan in which you could stock
intermediate hubs a bit. same plan
scenario v. intensity .. with regu

Supply chains →

Policy rules — you'd transfer it to
the supply chains

Small boats Munich.

CCA:

expedited Bill → Monday.

Probs w. derogating from ECHR.

Store of human rights bill new year.

Talk up the stuff we are bringing in.

Ramb. Consultation. HRA. D. Newt options.

Notwithstanding Bill? Hold back until after Xmas?

Derogation for ECHR, Article 5

Emergency and common law alike. Early legislation.

Can you give it a name?

Need to regularise. Early. Justified. We could have a
legal challenge. Early legislation to derogate.

New Variant

Ends
26 Nov

Belgium

77 cases S Africa. Underestimate.

Germany, University student
Belgium. Travel. HK.

Alpha case Egypt via Turkey -

more widespread than S Africa -

Some previously reported cases.

Alpha has Beta, as with the delta
delta.

Vaccine closer to new variant than
delta. So someone double vaccinated

There might be some vaccine protection

It will allow more transmission, but
less effect on severity & deaths.

It will be more soon.

ab tests. we won't get lab data for 3-4 weeks

about effectiveness of vaccine in

labs. will be far more than S African
cases.

At least 2 antibody cocktails won't work

but antivirals will work. 730,000 doses.

Need to get some more.

Speed up booster programme

go down the ages. TCH JCVI

get the antivirals.

Reduce the chance of it coming in
likely to be here already.

bolster defence w. vaccine &
antivirals.

Self - isolate & test of all
arrivals - Impact on tourism /
aviation will be huge.

PCR test

Brexit

Those for EU samples

to protect

No number
C. Hunt } 29th 2021

Chris. 2 cars in Essex. Shitak in Nottingham.

Under his travel to Zimbabwe. All
double vaccinated. None severely ill.

On Chelmsford 18. They're now being scanned.
Susilhon, living in Nottingham. Not clear
whether travel history.

S gene drop-out 1 in 1000. Still at
low level.

No evidence of S-gene drop out.
Doesn't mean you wouldn't spot

25% altitude rate in a household

Danger is
2 cars

Patrick. - Vaccine escape per transmission

- lower propensity for transmission
- may well be lack of vaccine
- But not everywhere.
- New widespread. Will transmit in
face of vaccination
- Not enough antibody responses?
- never vaccine?
- making specific variants

Simon Noddy

Malawi:

Mozambique

Zambia

with each are two world.

All travelers isolate & taking test.

Hunter see Wants back to old answer rules.

Most countries have been taken

very extensive mutation to spike protein.

Does it make it more transmissible or does it make it more lethal? 2 cases overnight. Cases linked.

Single cluster. Zimbabwe. Transmitted.

5 infected - felt pretty rough. Clinically symptomatic.

All young. Uncomplicated case for young.

Sussex Hospital. Symptom onset rapid. Asymptomatic cases in both households. LFD positive. Transmitting very effectively. Not isolating in person visited. School. Church. Golf club.

Sey. We don't have full information about this. We need to be deeply concerned. Local samples.

Sussex H. Booster for. Better prepared to protect ourselves. BCI. reduce time to Sussex. We can boost a lot more people. Antivirals. Give NHS time to prepare.

Sey : pre-departure test.

Frank: sequencing only at 25%. Must be higher. Huge drop in IAG. We need to
