I will comment on Grusch's 28 talking points here. Preview here

1. I know of one for sure.

2. Yes

3. My cousin was close to Marconi, who ran the investigation for Il Duce.

4. I don't know

5. Yes

6. I think so.

7. I know so.

8. I assume so.

9. As far as I can tell, Biden is not aware of anything. The USA does not have a functioning POTUS, which is why we have the Ukraine and Israel wars.

10. Clueless, irrelevant, and out of touch like all of Biden's WH staff.

11. I don't know and don't much care - the physics is evident,

and many non-state actors and foreign states are proceeding with my physics disclosures as we speak. Here's a simple fact: I was invited to Moscow last July. I did not go, but they have my information.

12. Agree

13. Agree we are not alone. I have military intel on three distinct ET Time Traveller types - undoubtedly others.

14. Obviously, yes - Yahweh, Greek, Egyptian Gods, Hindu et-al all ET Time Travelers.

All religions are Sky Gods.

15 The smart ones know it's time travel.

16. It Depends on what you mean by "sentient." Some are CONSCIOUS AI.

17. Yes

18, I have no intel on that.

19. Ditto

20. Ditto

21. Yes

22. That's the anti-gravity blue shift from warp drive motion without motion.

23. Senior officials in USG on ET are clueless out of their depth.

24. Yes

25. Yes.

26. Time Travelers gave us writing and bio-engineered us about

6,000 years ago (Garden of Eden)

27. That's what I just said.

28. Correct. RV is PQM EPR Signaling

Mr. Sarfatti, I was wondering if we can generate "white holes" or if they are spontaneously occurring?

Jack Sarfatti@JackSarfatti

The force shield is a "white hole without white hole" i.e. a white hole event horizon without the space-like singularity shown in the vacuum Penrose conformal diagram. This depends on the S-field gradients inside the metamaterial fuselage of the WARP CRAFT time machines we see in our skies.

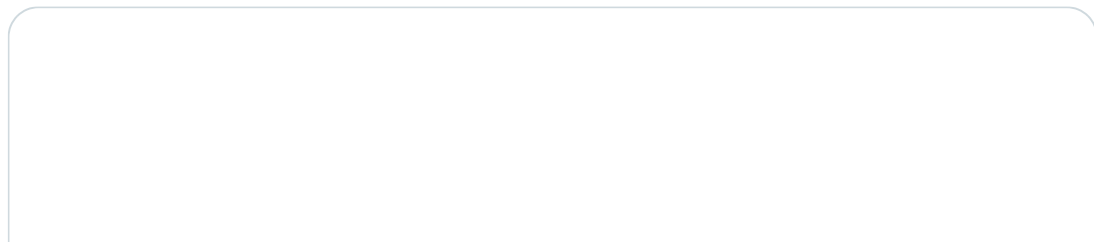

NoraforSure·

Penrose stated that he believes our consciousness may be non-local. Does this aspect of humanity have roles in how these craft "travel"?

Jack: Yes, of course. I have classified intel on that. It's not just a theory. It's operational. "Nonlocal" means PQM EPR signalling via Costa-de Beauregard Locally Retrocausal Signaling from action-reaction between mind pilot waves and the classical electric charges they pilot. This violates orthodox unitary probability conserving quantum physics, which is incomplete - a limiting case like special relativity is to general relativity. Most physicists need to understand the role of the vacuum speed of light when one extends special relativity to include gravity in Einstein's general relativity. They do not understand the qualitative difference between inertial and non-inertial frames. They misuse "constant", confusing it with "invariance".
