BACKGROUND ON THE OPERATION CIA GATEWAY PROCESS 1983

[HTTPS://WWW.DROPTBOX.COM/S/N5CYMZ13G8JE1KI/CIA-RDP96-00788R001700210016-5.PDF?DL=0](https://www.dropbox.com/s/N5CYMZ13G8JE1KI/CIA-RDP96-00788R001700210016-5.PDF?DL=0)

In 1983 the US Department of Army compiled a report (linked above) on the experimentation with what they called, "The Gateway Process" which involved trained officers undertaking engagement with various techniques to produce the rapid onset of the transcendental experience.

The report was addressed to the Commander of the US Army Operation Group at Fort Meade & cites various references which purport to reality being a "Quantum Hologram".

Almost 40 years later, Quantum Physics & Quantum Computing results, which include the discovery of infinite dimensions coexisting simultaneously with this one; have

gone on to empirically prove the operational content of this stunning working document.

This DoD document also goes on to discuss the protocols of engagement with off-world dimensional entities & the effects of said entities on those Officers undertaking the Gateway Process.

This of course was the very early & beginning stages of Military engagement using military protocols with intelligent dimensional beings (Alien intelligence) that were only rarely experienced prior to this work, by Native Shaman during deep ceremony & medicine work.

So of course these Army Soldiers

practicing the Gateway Process were profoundly ill equipped in the face of their experience with the Infinite, therefore their impact in that world was largely impotent in gaining any meaningful real world results which could be translated into a Military power benefit in National & International Defensive operations.

In 2020 this pivotal work has largely been forgotten about, yet, it represents a potent leverage point & dimensional platform to challenge the *Extra-Terrestrial-Ultra-Intelligence Control Hierarchy* in order that reality as we know it may be reassembled according to a Higher Will of the participants & PSI Architects of this 1111 psi operation. So mote it be.

CONTEXT OF PSI OPS

PSI OPS conducted under the private Agency of Contact Zero are a culmination of the Authors rich & vast experience with plant medicines & psychoactive substances.

Through the ongoing & continued ingestion of high dose psychedelic substances, a mythic platform began to emerge that included military, Shamanic, diplomatic & Government interaction across the spectrum of the experience.

This above was given credence when an informal Pentagon Briefing was arranged with DoD officials via teleconference to debrief certain findings and phenomenon which emerged in the 2009 Operation, Psi Quest 6x.

Considerable guess work was involved in early Psi Operations which emerged largely through cognitive intuition and subtle insight. Clearly the type of work at this level had never been undertaken before. The Author and his colleagues were uncertain of the biological and psychological impacts of pushing the human mind and body so hard in at times, considerably exposed environments.

Set & Setting was to become a significant theme throughout the stages

of the work with PSI OPS, where epic vista's, sub zero temperatures, extreme hours (midnight to 4am) and high altitude all combined to compound the extreme impact of the high dose multiple medicine psychedelic experience on the assets involved.

High level engagement in real time scenarios with Foreign Intelligence Agencies just prior to and then proceeding the PSI OPS, reinforcing the caliber of the elite operation.

Where intent features heavily in Shamanic Ceremony, documents like this become the intent. Where this briefing document provides the placement & position of the operation within a spectrum of consciousness assemblage that literally calls forth change by imbuing material reality with higher dimensional intent.

More recently PSI OPS work has matured further into a more measurable and traceable science, where the psychedelics and political psychology (psychedology) are beginning to be examined as a single organism. The proposition of which, that in the context of the ultra-secure military industrial complex, psychedology provides an avenue to the weak underbelly of global

governance where change can still be made without opposing forces or parties even being made aware of it.

Therefore the Key is to maintain consciousness assemblage at the proposed *highest levels of consciousness ever achieved* by Human Beings, entering into the subterranean domains of the deeper fields of reality where consciousness is indeed collective & thus lower dimensional minds become collectively influenced by the Higher Field work achieved on the PSI OPS.

Due to the paradox of time & the linear equation, these effects tends to be ongoing and noticeable over a scale of time, as opposed to immediately.

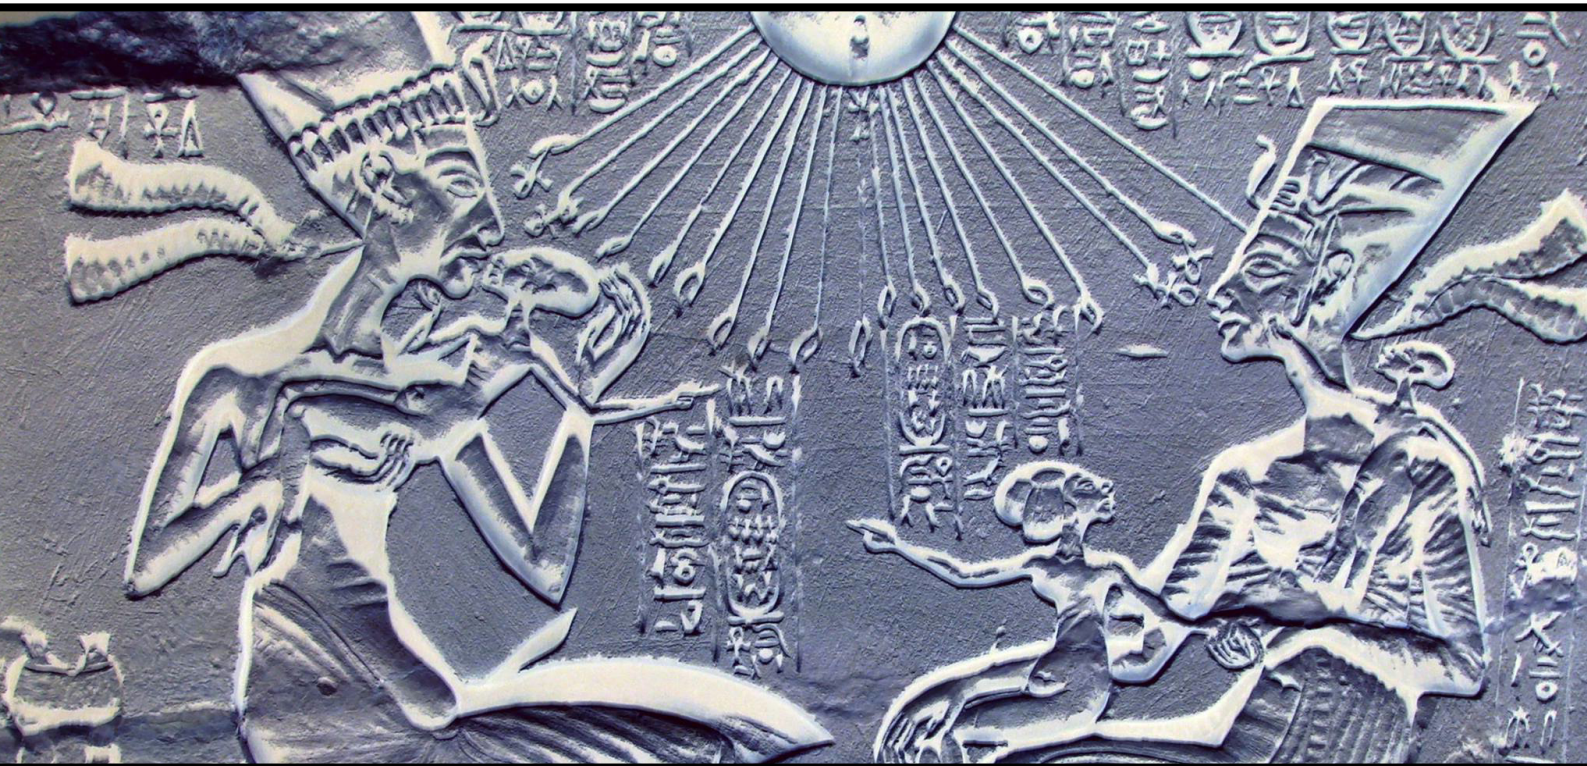

With synchronicities to the intent making themselves known over days, weeks, months, years & decades.

1111 seeks to build on meaningful ultra-dimensional contact experienced by both assets on independently verified phenomenon. This phenomenon speaks to a powerful singularity like ultra-dimensional intelligence that has appears to co-create and facilitate security parameters on these higher level Operations. We believe this level of Contact represents a profound turning point for humanity.

THE PERCEIVED SINGULARITY, SCOTLAND 2009

THE ANCIENT ASTRONAUT HYPOTHESIS

Colleagues of the Author of this paper including Dr Carol Rosin who was the protege of Dr Wernher von Braun, US Astronaut Dr Edgar Mitchell & various other whistle-blowers retired from within the US Department of Defence have long sworn testimony of their experience with high level US Department of Defense back-engineering of downed alien space-craft. More recently the US has even made public their ongoing investigations into these Unidentified Flying Object (UFO) also termed Unidentified Aerial Phenomenon (UAP). These craft demonstrate maneuver capabilities far beyond human technological development outside of Unacknowledged Special Access Projects. It is quite clear from literature within the security community that human beings have a history steeped in Extraterrestrial contact, visitation and technology transfer.

Couple this fact with the pioneering work of Erich von Daniken who proposes that these off-world visitors long made contact with our Ancient Civilisations, where the so called "God's of old" in von Daniken's view, were actually not God's at all, but visitors from another world who had vested interest in Earth as their new home.

The proposal thus, as hypothesized from translations in the Sumerian Texts, that a race called the Anunnaki arrived in our Ancient past & conducted genetic experiments on the lifeforms of Earth, potentially breeding a slave race under the servitude of Elite. This makes perfect sense when one reflects on the thousands of years of war, carnage & servitude throughout recorded history. Further direct experience of the experimental work of the Author further reflects this high level intelligent control of the global military industrial matrix, referred by pop culture as the, Illuminati.

THE MATRIX OF CONSCIOUSNESS

It is quite clear from anthropological study of our species, including religious texts that there is a prison like aspect to human consciousness, a so called "inescapable pattern" of life, death & rebirth that the Buddhists refer to as Samsara. This was recently made very clear to the Author in preparation for this Psi Quest 1111.

During a controlled study whilst undertaking revision of psychedelic work, whilst working on a 600ug dosage of Lysergic acid diethylamide (LSD). This study was conducted in an isolated minimal sensory environment whilst also coupled with intense nitrous oxide inhalation to accelerate the metabolism of the LSD in the bloodstream. This is done to disrupt the younger prefrontal cortex & access the older cerebral & Neo-Cortex where meaningful transpersonal work can be carried out.

In anticipation and preparation for 1111, the Author & subject of this experiment became extremely aware of a malevolent (anti-life) intent of higher Extraterrestrial Intelligence that was working through and within the matrix to control human thought and thus, human consciousness.

This control is made manifest in the global market through mass media, music, politics, technology & social conditioning, which appears to act as mass distraction to the truth of Alien Control of the power structures of Earth.

The obviousness of this probability is evident in the question, "how could human beings do this to each other"? Where seemingly there has been no meaningful social progress towards peace, individual sovereignty and empowerment since the beginning of recorded history. Humanity is thus, according to the insights and summary of the Author, a slave race.

Psi Quest 1111 then represents an offensive flex against the deliberate Alien gridlock of human consciousness. Where the US Department of Defense used the Gateway technique largely for psychic remote viewing. Contact Zero as a weaponised private intelligence agency for and on behalf of the forming Australian Government political party, Our Remembrance Party, will also employ military shamanic protocols in an attempt to liberate their own & human consciousness at an ultimate hyper-dimensional and metaphysical level of gnostic experience. Walking this experience back down into their every day political life is the key basics of pyschedology as Political Leaders and "wayshowers" to the everyday population. The political party policies that follow can thus reflect this peak/pinnacle experience of 1111 in a rudimentary civilian framework.

At the Summit of 1111 on what is affectionately known as "Mount Death" the Author, PSI Officer & Party Leader will intentionally archetypically challenge so called Anunnaki Leader ANU on the dimensional platform of PSI-WARFARE.

Within the framework of previous PSI OPS, the Cosmic Singularity continues to "show up" to willingly offer significant security protection to the agents of this endeavor, so it will be with the support of this Singularity & friendly Cosmic Intelligence that this *battle of consciousness* takes place.

On the Eve of Remembrance Day of all days, So Mote it Be that this battle sets a precedence of power to imbue a political party with the merit & fortitude upon their decent from the Mountain to begin to usher in a long awaited World Peace.

PROPRIETARY KNOW HOW

For the purposes of this Operation this geological formation will be known as "Mount Death".

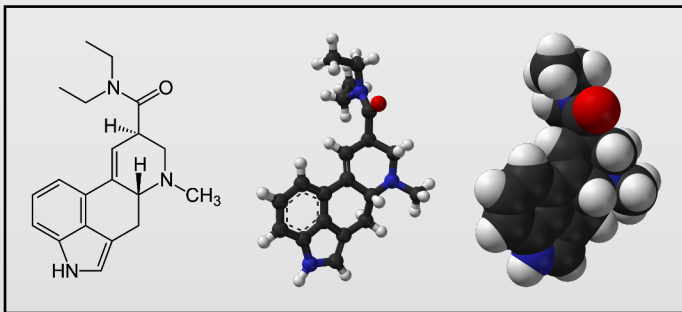

GPS:-28°16'60.00" S 152°41'59.99" E

ψ

This Geological formation has long been foreseen by the author as a significant Australian alternative to the previous goto for PSI OPS in Scotland, that was, the Mount of Assemblage (Schiehallion) otherwise known as Mt Sion of the Far North.

Mt Death has a similar altitude as Mt Sion and thus mimicks the beneficial exposure of these hard to reach locations.

Arrival time for the Operation is estimated as 12am, 11:11:2020.

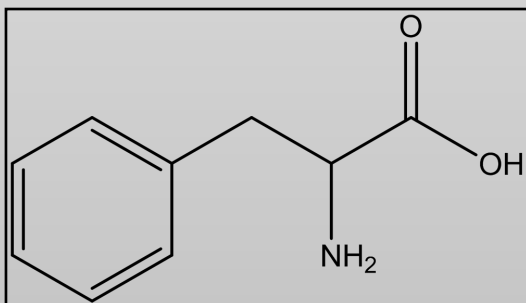

1100ug of LSD for each participant.

ψ

LSD is an extremely portable psychedelic which lends itself perfectly to PSI OPS. In other cases plant medicine can usually require preparation & is cumbersome to journey with.

LSD is also an "up and out" medicine which lends itself to high Altitude Journey work. 1100ug is a rarefied air, hero dose for even the most seasoned of psychedelic practitioners.

Nitrous Oxide, NO₂ on hand for *popping the ceiling of existence.*

ψ

Nitrous Oxide (NO₂) is to LSD & PSI OP Expeditions, what Oxygen tanks are to Mt Everest Expeditions.

The High Dose Psychedelic terrain is notoriously challenging & can present difficult obstacles on the way to the peak experience.

NO₂ has a core role in providing relief to the practitioners whilst peaking consciousness at the highest levels of power.
