

LET PEACE LETTER

From: all india hacker team

For: The entire Indonesian hacker team

With this letter we request and declare peace and stop cyber attacks between the two parties....

Know that there is no point in attacking each other, because it cannot improve the existing conditions... we only make the situation worse in each other's countries...

We are just wasting our time, wouldn't it be better if we used our time for things that are more beneficial to us?

So we hope that based on this letter, all cyber attacks between Indonesia and India will end...

GREETINGS OF RESPECT AND PEACE
FROM ALL OF US TO THE ENTIRE
INDIAN HACKER TEAM..
