NATO LETTER OF PROMULGATION

1 December 2017

1. The enclosed Standards Related Document, ALogP-33.1, Edition A, Version 1, FOCAL POINTS FOR TEST AND MEASUREMENT/CALIBRATION, which has been approved in conjunction with ALogP-33 by the nations in the Life Cycle Management Group, is promulgated herewith.
2. No part of this publication may be reproduced, stored in a retrieval system, used commercially, adapted, or transmitted in any form or by any means, electronic, mechanical, photo-copying, recording or otherwise, without the prior permission of the publisher. With the exception of commercial sales, this does not apply to member or partner nations, or NATO commands and bodies.
3. This publication shall be handled in accordance with C-M(2002)60.

Edvardas MAŽEIKIS
Major General, LTUAF
Director, NATO Standardization Office

INTRODUCTION

STANAG 4704 contains the NATO requirements for calibration in addition to applicable norms and standards. NATO Requirements are defined and need to be established, documented, applied, maintained, assessed and improved, and/or evaluated, in accordance with requirements contained in SRD. Participating Nations and NATO Agencies focal points for tests and measurement /calibration are listed in this SRD.
