As we recently discussed and agreed, it is kindly requested that the below list of 15 ManTech International contractors be billeted in one reserved tent with suitable beds, foot and wall lockers. The team was undergoing training at HQs ISAF with an anticipated return date to KAIA North of 15 or 22 March; however, it is my understanding that they returned today. We anticipate that all individuals will arrive to KAIA by mid/late March 2010 and we also anticipate an additional 4 individuals will arrive in 4-6 months. The roster of personnel is as follows:
