19.10.2020

Respected Dr. Mahesh Sharma ji,

Member of Parliament,

Gautam Budh Nagar,

Dear sir,

FONAA is federation of high rise societies of Noida & Gr.Noida working to address all the issues of lakhs of habitants of this part of Delhi NCR.

Pollution has always been a big issue for the whole country throughout the year but it becomes svere during winter months for Delhi NCR & particularly Noida.

We all are aware that there are multiple reasons for this rise in pollution levels every winter,which include geographic, climatic, population, economic activities from agriculture, industry to automobile etc etc.

There is need to have comprehensive approach adopted by all stakeholders, be it governments, farmers, industries & public at large.

These efforts to control pollution by the regulators have not yielded desired results.

The latest GRAP guidelines from EPCA are nothing but annual rituals.

The ban on DG sets in residential high rise societies would be counterproductive.

It's well established fact that during Covid 19 times pollution levels came down & one of the major reasons for this is less vehicles on roads as large no.of people are doing Work from Home & Study from Home.

Senior citizen & kids are also staying indoors as per the lockdown guidelines during Covid 19 pandemic.

Now, if the Ban on DG sets continue to be implemented,

1) how a huge population going to do 'work from home'

2) how lakhs of students going to 'study from home'

3) there are many Covid 19 positive cases in each & every high-rise Society & Govt Authorities have been advising them home quarantine during which Corona patients have to use oxygen generators & no DG power backup is going to be life threatening for them.

All these activities need uninterrupted power supply.

Supply from the Grid is also not dependable always & frequent cuts are faced by public.

Ban on DG sets in Noida Gr Noida would definitely dent the Govt.' efforts in controlling the Covid 19 pandemic.

DG sets in residential high rise societies in Noida & Gr.Noida are used only in case there is a breakdown in Grid power, so is not a noticeable contributor in pollution.

Please allow the use of DG sets in residential high rise buildings of Noida & Gr. Noida in the larger interest of public during Covid 19 pandemic times.

Regards

Sandeep Singh Chauhan

President
